

HiCare™

HiCare Superior Bathing System

The most efficient and hygienic bathing solution.

Developed in Australia, our HiCare products are lab safety and dermatologically tested and suitable for people unable to do their own bathing.

- > NO water, basin, soap or towels required
- > pH balanced
- > Alcohol, soap and latex free
- > Wipes contain moisturisers and emollients to nourish the skin
- > Does not promote microbial growth

HiCare™
Waterless Shampoo

HiCare™
Ecobath

HiCare™

ECOBATH

CLINICAL APPLICATION

The 8 cloth resealable pack is used where a full body wash is required.

PREPARATION

Please ask the patient / resident how they would like their bath / wash prepared:

Warm : Microwave the sealed pack for approx. 20 seconds, or to desired temperature (micro heat stickers available to record ideal heat setting, place sticker on the microwave). Always check the cloth temperature before application to the person.

Chill : If the Patient is febrile or it is a hot day you may chill the sealed pack in refrigeration for (5-10) minutes.

Other : Simply use the soft cloths straight from the pack at pack temperature.

CONTRAINDICATIONS FOR USE

Not to be used for wound cleansing.

EVIDENCE BASED STUDIES (2)

(1) Independent studies show that our single preservative prevents the growth of gram +ve and gram -ve (S aureus, P aeruginosa), eColi, MRSA, A niger and C albicans

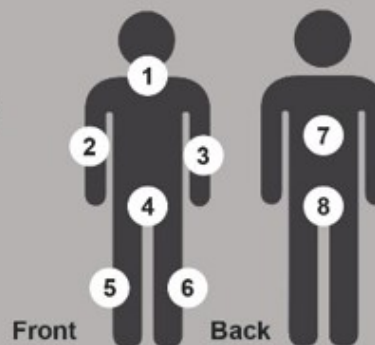

(2) Independent consumer dermatological Studies at research lab in the USA. There were no negative outcomes, no allergic reaction or sensitivity.

CONTENTS :

Blended cloth, Glycerin Sodium Lauroyl Sarcosinate, Phenoxyethanol Panthenol, Tetrasodium EDTA, Ethylhexylglycerin Citric Acid, Fragrance and deionised, Purified water

For full body wash:

1. Face, neck, and chest
2. Right arm / axilla
3. Left arm / axilla
4. Buttocks
5. Right leg
6. Left leg
7. Back
8. Perineum

HiCare™

WATERLESS SHAMPOO

CLINICAL APPLICATION

"In-bed" use - no water required. The 60ml pack will be sufficient for no less than 4 to 6 shampoo of shoulder length hair.

PREPARATION

Simply remove the plastic cap from the bottle, no other material required

HOW TO USE

Depress the foam head on the pack a number of times to obtain the shampoo. Apply directly to dry hair until hair is wet and massage through. Then comb/brush the hair to air dry or towel dry if required.

Do not add water, this is a rinse free product.

CONTRAINDICATIONS FOR USE

Note: Bleach treated hair may look 'untidy' dry, when HiCare Waterless Shampoo is used - it will however be cleansed.

HOW DOES IT CLEAN ?

- The surfactant cleanser in the waterless shampoo returns the hair to its neutral pH. The surfactant also emulsifies any oil, dirt, grease, grime or perspiration from the hair.
- The HiCare Waterless Shampoo also contains the protein Keratin, which nourishes and strengthens the hair shaft.

CONTENTS :

Aqua, Decyl Glucoside, Keratin, Phenoxyethanol, Caprylyl Glycol, Sorbic Acid, Disodium EDTA, Parfum, Citric Acid
