

DELAWARE STATE HEALTH IMPROVEMENT PLAN (SHIP) PARTNERSHIP COALITION

January 29th, 2024

***Delaware*SHIP**
Charting a course to improve health

Agenda

Introductions and Welcome	Kate Culhane-Suluai, MPS
Results of the Delaware State Health Improvement Plan Summit <ul style="list-style-type: none">• Prioritization of Health Outcomes• Prioritization of Vital Conditions• Selected Multisolving Solutions	Yendelela Cuffee, PhD, MPH
Ecosystem Mapping <ul style="list-style-type: none">• Disease States & Multisolvers	Kate Dupont Phillips, MPH
Adjourn	Kate Culhane-Suluai, MPS

Overview of Summit

- The Delaware SHIP Summit was a two-day Summit on December 13, 2023, and December 14, 2023
- We heard from experts in humane housing, reliable transportation, lifelong learning, and basic needs for health and safety
- We were reintroduced to the vital conditions framework and learned about multisolving solutions
- During the second day we set the priority areas and selected multisolving solutions

State Health Assessment Results

Healthcare Access (primary, mental, dental, reproductive)	Transportation Access
Food Insecurity	Affordability
Safe Neighborhoods	Challenges in Rural Areas
Tobacco Use	Social Isolation
Opioid Use	Civic Engagement
Housing Security (Homelessness)	Financial Security
Affordability	Lack of Living Wages
Housing Quality	Unemployment and Underemployment
Access to High Quality Early Learning	Clean Air, Water, and Soil
Reading Proficiency	Healthy and Sustainable Ecosystems

State Health Assessment Results

Chronic Disease Burden

(e.g., Diabetes, Heart Disease, Cancer, Respiratory Conditions)

Mental Illness

Maternal and Infant Health

(e.g., Preterm Birth, Low-birth Weight, Unintended Pregnancy)

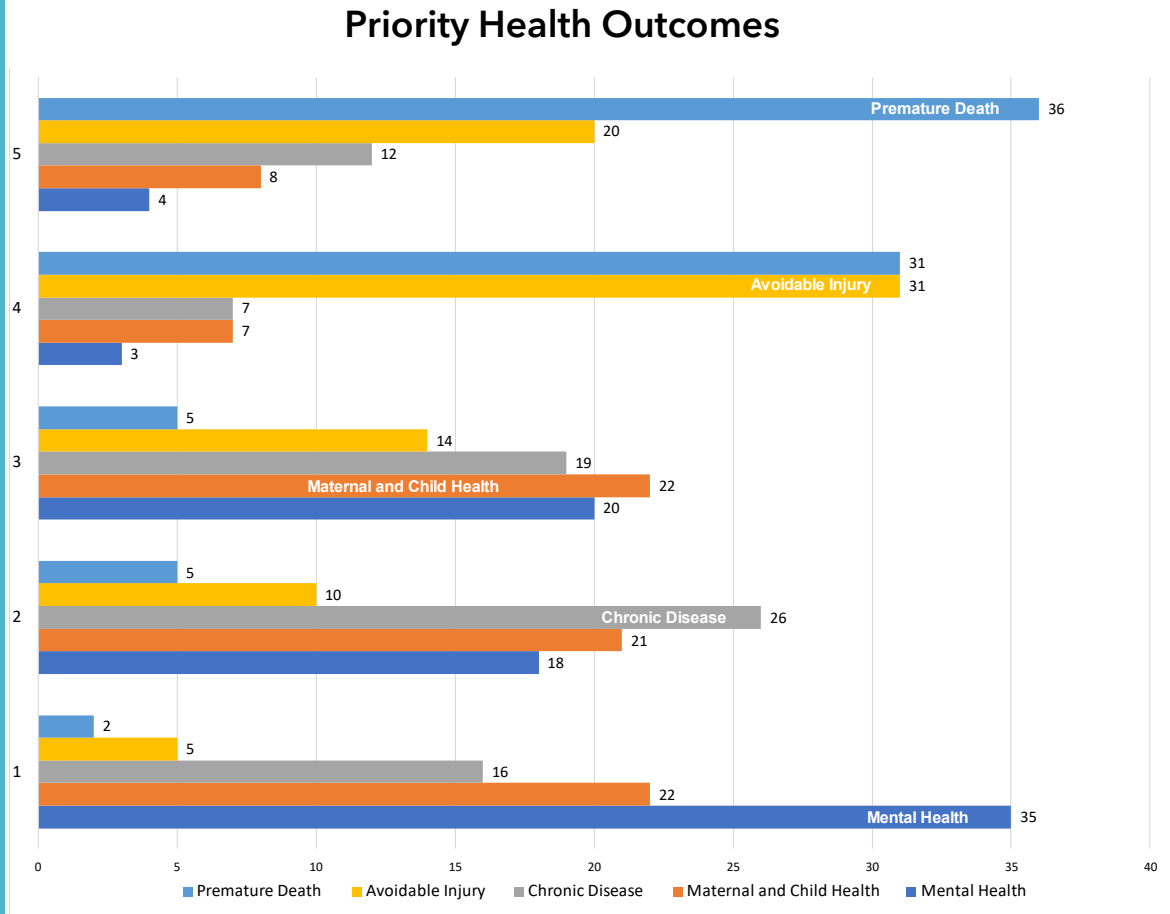

Avoidable Injury (e.g., Gun Violence)

Premature Death

MULTISOLVING SOLUTIONS

Federal Plan: Connections Across Multiple Vital Conditions

A small group of multi-solver recommendations has the potential to positively impact multiple vital conditions through one action.

	 BELONGING & CIVIC MUSCLE	 THRIVING NATURAL WORLD	 BASIC NEEDS FOR HEALTH & SAFETY	 HUMANE HOUSING	 MEANINGFUL WORK & WEALTH	 LIFELONG LEARNING	 RELIABLE TRANSPORTATION
Establish a Center of Excellence in Cultivating Community Well-Being							
Increase access to green and blue spaces							
Assess and address the effects of climate change							
Catalyze development of urban agriculture, gardens, and markets			 				
Expand access to broadband							
Co-locate high-value services and resources at transportation centers							
Address major drivers of the benefits cliff effect							

Benefits of Multisolving Solutions

Co-design solutions guided by the **wisdom of diverse perspectives**

Make the most of **multisector partnerships**

Avoid solving one problem, while **making others worse**

Strengthen support for innovations that are difficult to enact

Combine **short- and long-term strategies**

Introduce a **new way to identify and evaluate** proposed actions

Find higher leverage for **lasting system change**

Break from business-as-usual in a siloed system

Multisolving Solutions Results

There were 3 opportunities to provide input:

- Yes, Wilmington!, ~110 responses
- Delaware State Health Improvement Plan Summit, ~80 responses
- Online survey, 131 responses

Top 6 Selected Multisolving Solutions

Humane
Housing

Lifelong
Learning

Reliable
Transportation

Meaningful
Work and
Wealth

Basic Needs
for Health and
Safety

Basic Needs
for Health and
Safety

Selected Multisolving Solutions

Humane Housing: Coordinate affordable housing developments with proximity to comprehensive services.

Lifelong Learning: Increase access to high quality early childhood education.

Reliable Transportation: Increase the widespread availability of reliable public transportation that is affordable, frequent, and convenient within and between communities.

Meaningful Work and Wealth: Increase the minimum wage (currently \$11.75/hr.) and index to median wage growth.

Basic Needs for Health and Safety: Expand state Medicaid coverage to include federally allowable supports for social needs (housing, food); coverage of evidence-based services such as Community Health Workers and doulas; tobacco cessation supports, etc.

Basic Needs for Health and Safety: Increase access to health care services for physical and mental health (e.g., community health workers, telemedicine, school-based health centers, increase providers, etc.).

Ecosystem Mapping

- Understanding the current landscape and potential opportunities for the disease states and multisolving solutions
- In-person: Paper or Jamboard
- Online: Jamboard
 - Slides 1-6: Multisolving solutions
 - Slides 7-9: Maternal Child Health, Chronic Disease, Mental Health

Ecosystem Mapping

Question Set:

- Who are the organizations/advocates currently working on this issue/solution?
- Is there a clear leader (organization and/or advocate)?
- Who is missing from the conversation around the issue/solution that should be at the table (sector, organization, advocates, etc.)?
- Are there any organizations working against this issue/solution?

Ecosystem Mapping

- Is your organization working on or interested in working on this issue/solution? Would engagement align with your current org. Priorities?
- Which communities does this solution affect the most? How would some communities need different support/consideration compared to others?
- What are the current funding sources to address this issue/solution (amount and source)?
- Which organization/agency in DE currently holds this funding?
- Are there potential funding sources for this issue/solution that DE does not currently take advantage of (source, amount)?

Jamboard

Ecosystem Mapping: Multisolving Solution #1

Humane Housing: Coordinate affordable housing developments with proximity to comprehensive services.

Who are the organizations/advocates currently working on this issue/solution?				Is your organization working on or interested in working on this issue/solution? Would engagement align with your current org. priorities?				
Is there a clear leader (organization and/or advocate)?				Which communities does this solution affect the most? How would some communities need different support/consideration compared to others?				
Who is missing from the conversation around the issue/solution that should be at the table (sector, organization, advocates, etc.)?				What are the current funding sources to address this issue/solution? (amount and source) Which organization/agency in DE currently holds this funding?				
Are there any organizations working against this issue/solution?				Are there potential funding sources for this issue/solution that DE does not currently take advantage of (source, amount)?
