

Salt and Light

When we receive salvation through Christ, we are called to a greater purpose. We are called to glorify God. We glorify God by showing others who God is through us. That means we can't hide in our own little Christian world. We have to get out there and demonstrate who God is to others. Salt was very valuable and was often used as a preservative. As Christians we are called to preserve God's word. We don't add to it (as in flavoring) but preserve it. We have to be careful that in the process of demonstrating God to others that we don't become contaminated by their influences, because if we become too influenced by worldly things than we become no good for God's kingdom. So, make sure and let your light shine brightly! Make sure that outside influences do not dim your light and show them the life saving grace through Jesus Christ!

Matthew 5:13 – 16

2 Thessalonians 2:6
