

## 1000 Series Frame Styles

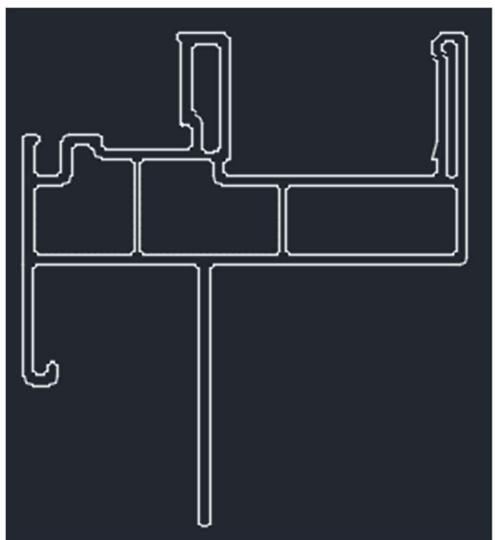

### 1000 Series Standard Main Frame

2 ¾" Overall Width

1 ¼" Nail Fin Set back (from outside face of window)

Most uses including new construction and replacement.

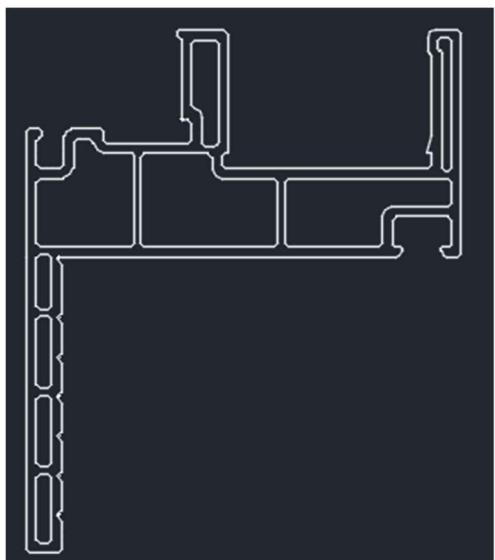

### 1000 Series J-Channel Main Frame

2 ¾" Overall Width

Please ask our customer service team for a sample to ensure that your siding product will fit properly in this channel system.

For use with vinyl, steel and fiber cement siding. Often eliminates the need for standard j-channel or exterior trim.

### 1000 Series Flush-Fin Main Frame

2 ¾" Overall Width

For use when an existing frame remains in stucco, brick or other application. Please consult the [Flush-Fin installation guidelines](#).
