

2022 – WE BELIEVE IN YOU

By Judith Cook

2021, has been and gone,
and in its wake we did not break,
in true English style a cup of tea and a slice of cake
as onwards and upwards we live to give but we do not take.

Here we stand in 2022,
we may be wondering what to do.
Whatever our life has in store for me and for you,
let's knock down that door so we can explore.

A new year brings life,
love and fear.
Please do not worry as we are still here
to help and guide you from ear to ear.

We learn each year as we grow and develop,
to become brave and strong,
to fight for what we think is right,
while we sleep at night waiting for the light.

Pandemics are a word we have come to live with,
whilst being boosted to survive,
we thank god we are here,
so grateful to be alive.

The winter is cold and harsh,
our thoughts move quickly to spring.
As we continue to still be able to hold,
we are not finished, not even diminished.

2022 we very much welcome you.
