

'September of Surprises' By Judith Cook

September can be full of surprises
if we are to be led by our own devices.

Spiders come inside to view,
not nice at the time if you are on the loo.
Chase them away ya silly moo
they cannot come in to do what they do!!

The months' continue, or this much at least is true.
Just what are these life surprises,
just what does it mean for the likes of me and you.

Well school's back for one that's no surprise?
even you cannot disguise the sheer joy clearly in yer eyes
as you have to give up the game of eye spies!!

Holidays over it remains in yer brain
even when you were scrubbing that stain
clearly thinking well this is a pain.

It could always be worse
just think of that verse
"always look on the bright side of life"
that's guaranteed to warn of life's strifes.

Yes, September song is here
so let's at least have a cheer
before they raise the price of yer pint o beer.

We will just get on with our jobs
the alternative is to lower those knobs
on them there expensive gas hobs
don't forget there's yer tasty hob knob!!!!
