Both Karen Smith and Eric Weber noticed Fenton lamps used in several episodes of Perry Mason.

Please note the not so happy marriage in one of the pictures!

## Fenton Unicorns Come Back to Life

By Jason Shankland

Some fun facts:

There are 2 moulds; they cost \$500 each.

Jason has an agreement with Mosser Glass regarding running the moulds. It took four years to get the first run!

Glass colors run to date: Robin Egg Blue, Crown Tuscan, Eggplant, Crystal, Milk Glass, and Jade. Most have the carnival treatment.

## Fenton Seconds

By Lori and Michael Palmer

At right is the base of a vase that has had information blasted off because it may be an over-run of a numbered item.

The Vasa Murrhina cruet has a hand-engraved 'S'.

Flame S - used in the early 1990s

Stars - (solid or outline) June 1996 - July 1998; a double star was used on seconds donated to charities for fundraising activities.

Block F - used from August 1998 until closing.

## Critter Corner

By Becki Ann Selby

Fenton's 5225 puppy is 3.5" long and was introduced in 1987. The mould was created by Tony Rosena and had a smooth tail (pic. right).

The mould was revised in 1998 by Jon Saffell, having more defined fur and a bushy tail. Less than a dozen examples were made using the original mould.

At present, the mould is owned by the Fenton Gift Shop. They have had Mosser Glass press the mould providing puppies to decorate.
