## Critter Corner

The 5167 Sunfish is 2.5-inch tall and was first made in the 1930s for Kresge Department Stores. Fenton made them again in 1979, then shelved the mould until 1991.

At right is one Sunfish of a 3-part hand-painted set made for QVC in 2000.

Below is a Favrene example, and a Sunfish with interesting color.

The NFGS now owns the Sunfish mould.
