

Connect with nursing students and share your story!

OVERVIEW

Participate in a research study exploring how intentional interactions between younger and older adults foster connection and common ground.

ELIGIBILITY

Open to adults age 50 and older willing to be paired with a nursing student for six hours of one-on-one interactions.

RESEARCH
STUDY

PARTICIPATION

This unique intergenerational experience will include 1:1 interactions, surveys, and a focus group.

01

1:1 Interactions

You'll be paired with a nursing student for six hours of shared activities

02

Surveys

Take an online survey at the beginning and end of the semester and a quick debriefing survey after each 1:1 interaction with your paired student

03

Focus group

Attend one focus group at the end of the semester

04

Compensation

Participants will receive up to \$160 in compensation, based on the number of study activities completed
