

DECEMBER 24. 2022

After several years of planning and seven and a half months of actual construction, we finally have our front steps back. We can, finally, walk into the church through the front doors once again. Halleluia!

We will bless the new stairs at the beginning of the 5:00 Mass on Christmas Eve.

Please feel encouraged to enter and exit through the front doors, especially once the snow has been cleared.

Notice the safety features of the solid handrails and the non-slip finish and the widened sidewalk on the south side of the steps. How nice it will be to stand under the new, enlarged canopy and chat with fellow parishioners, even if the rain is pouring down, we'll be covered. Definitely great news.

A great big shout out of thanks to Father Mariano and all the members of the Building committee, who made it happen.

We have our steps back!

We owe a special thank you to Laurence Tkach, who worked tirelessly with the construction company, Édifice and the engineering firms and consultants during this entire period of planning and construction.

And thank you, Parishioners who waited patiently through this process and who, ultimately paid for this huge improvement to Our Lady of Lourdes Church. Merci beaucoup. Thank you very much.

Fr. Larry
