

# WORDSMITH LASER RETAIL CATALOG

WHERE QUALITY MATTERS!

## SOUVENIRS

FIND OUT WHY QUALITY SHOULD MATTER TO YOU.

## CUSTOM PRODUCTS

FIND THE BEST LASER ENGRAVED WOOD PRODUCTS!

# WORDSMITH LASER

We take pride in creating quality products!

We understand that many of our competitors use less expensive birch plywood and do not take the time to clean the residue from the finished product that the lasering process creates.

Our products consist of quality cherry wood & flat fine grain cork. These materials produce a final product that stands out from the rest!

Thank you for choosing Wordsmith Laser!

Sincerely,

Jeff Graber

# MAGNETS

## Round

Our standard round magnets are 2 or 3-inches in diameter and .185 inches thick. Standard species of wood is cherry.

## Rectangle

Our standard rectangle magnets are 2 1/2"x 1 1/2" and .185 inches thick. Standard species of wood is cherry.

## Custom

We can custom-make almost any size and shape of magnet and image. Standard species of wood is cherry.

All magnets come with a coat of tung oil on the face and a flat magnet on the back.

We use cherry wood as our standard. If you would prefer a different species, please inquire for special order pricing.

(All magnets shown are made of cherry wood.)
