How To Score

If you said ‘Yes’ to 3 or more, a Medicare Supplement is probably right for you!

If you said ‘Yes’ to 2 questions, a further needs analysis should be done before determining the right insurance for you.

If you said ‘Yes’ to 1 question or less, you may want to consider Medicare Advantage.

If you are not confident in your decision and would like to further “talk it out” we are here to help! Likewise, if you are ready to enroll, we can assist in picking out the right plan for you, and offer you continued service for years to come, to ensure you are protecting your retirement years.

- When you are ready to discuss your options, give us a call, or email.
