Is Medicare Advantage Right for You?

Follow this questionnaire to find out if Medicare Advantage is right for you!

- 1. Is a lower monthly out-of-pocket a priority for you? YES / NO**
- 2. Do you prefer to bundle all your healthcare coverage together? YES / NO**
- 3. Do you desire to have additional benefits beyond what Original Medicare offers? YES / NO**
- 4. Do you have less than 6 doctors that you feel are a “must keep”?** YES / NO
 - Due to network limitations, it can be, at times, difficult to find a plan that several doctors from different doctor groups accept. If this is the case, a [Medicare Supplement](#) may be more suitable.
- 5. Are you comfortable with an HMO or PPO network? YES / NO**
- 6. Do you know which Medicare Advantage Plan you are potentially interested in? YES / NO**
 - If not, that’s normal. We can help.

How To Score

If you said ‘Yes’ to 3 or more, a Medicare Advantage Plan is probably right for you!

If you said ‘Yes’ to 2 questions, a further needs analysis should be done before determining the right insurance for you.

If you said ‘Yes’ to 1 question or less, you may want to consider a Medicare Supplement.

If you are not confident in your decision and would like to further “talk it out” we are here to help!

Likewise, if you are ready to enroll, we can assist in picking out the right plan for you, and offer you continued service for years to come, to ensure you are protecting your retirement years.

- When you are ready to discuss your options, give us a call, or email.
