#### **ALVARADO MINE VENTURE**

Extracting Gold, Silver, and Platinum Group Metals (PGMs) from the Alvarado "dump" ore and other nearby mines.

Native Metals, LLC Donald Jones, Business Manager (425) 269-9721

## Opportunity

Gold exceeding \$3000 per oz creates a unique opportunity to extract gold from virtual mountains of "dump ore"; however, the methods for the extraction of precious metals requires advanced chemical knowledge and experience.

## Solution

Native Metals' proprietary chemical extraction formulas—developed by top metallurgical chemists—make it economically viable to process low-grade "dump ore" profitably at gold prices above \$2500/oz.

## Gold Recovery 3 Step Plan

- **Step 1:** 1<sup>st</sup> month, establish pilot circuit to process 126 tons of dump ore monthly, projected to yield 37 ounces of gold, generating gross revenues of \$109,000 and net processing surplus of \$84,000.
- 2<sup>nd</sup> month, setup a second circuit so that the 2 circuits yield approximately 86 ounces of gold generating gross revenues of \$250,000, net processing surplus of \$220,000, and cumulative surplus of \$209,000.
- **Step 2:** Increase the gold and silver recovered by adding one more circuit every month until 6 leaching circuits are recovering precious metals!
- **Step 3:** After the 6 gold recovery circuits are operational, Native Metals plans to self-finance leaching circuits for the extraction of PGMs (platinum, palladium, iridium, and rhodium) which are considerably more profitable.

### CASH FLOW CHART

Step 1 – Months 1 & 2

Initial loan	End 1s	t month	End 2nd month								
\$250,000	Net Oz	s Gold		Net O	zs Gold

### 5-YEAR SURPLUS

Our surplus is anticipated to increase each month as we add processing circuits and acquire permits for extremely profitable PGMs recovery. We estimate our first year potential upside will be \$2 million dollars and, as we selffinance to expand into multiple PGMs leaching circuits, our surplus will exceed \$300 million dollars within 5 years.

Platinum Group Metals (PGMs) are essential and precious metals which include platinum, palladium, rhodium, iridium, osmium, and ruthenium.

## Native Metals, LLC Assets

The combined value of the 115 acres that constitutes the Alvarado Mine property, its buildings, mining equipment, mineral and water rights, exceeds the sum of \$3,500,000.

Overview of the Alvarado Mine property.

# Our Value Proposition

- In consideration for providing Native Metals, LLC, the "Loan" of \$250,000, the Lender shall receive:
  - The repayment of principal and 12% per annum interest on an accelerated basis (25% of the surplus) until the total Loan has been repaid in full, and thereafter
  - A five percent (5%) interest the company.
- All sums lent to Native Metals, LLC shall be fully collateralized by the assets currrently held by the company.

## Management Team

Operations Manager. Joseph Michael Sierakoski, is our metallurgist chemist with over 50 years international operations and technical experience. A specialist in hydrometallurgy.

Business Manager. Donald Jones, our lead investor, is an independent financial consultant for structuring companies and raising investment capital for over 40 years.
