

Explore the Outdoors in a Whole New Way with Orienteering!

www.badgerorienteering.com

Orienteering is a navigation activity, using a highly detailed map. Whether you're a hiker, competitive runner, or just a family or group discovering the outdoors, orienteering is a fun way to learn navigation skills!

We teach map-reading skills, starting with beginners, who navigate using features on the map — trails, buildings, ponds, and the like. With practice, advance your skills to read maps of remote terrain with few trails or man-made features.

Badger Orienteering holds events primarily in the spring and fall seasons. Events are held on Saturdays or Sundays, at locations such as Blue Mound State Park, Devil's Lake S.P., Lapham Peak, and the Greenbush Recreation Area in the Northern Kettle Moraine.

See our website for more information about membership, DIY practice courses, event calendar and more.

Register for any 2023 event, and use the coupon code **OUTWIGO** for a \$3 discount on the BEGINNER COURSE.

Next event:

May 20th (Saturday) at Lapham Peak State Park.

Online registration for Lapham Peak closes

Wednesday May 17th
