The Decoria® collection
of dermal fillers

Pure. Premium quality. Smart aesthetics.

Decoria® is the premium collection of dermal fillers by BOHUS, pioneers in the development of ultra-pure hyaluronic acid (HA) products for ophthalmics, aesthetics and orthopedics. By preserving the natural form of HA strands we can provide exceptionally pure dermal fillers, this is Decoria®. Designed for your patients – safe, natural and easy to use.

Exceptional purity

SHAPE Technology™ (Spherical HA PrEcision)

- Helps restore youthful natural facial features
- Smooth and easy to inject

Helps aesthetic practitioners recreate the youthful soft volume and shape that is lost with aging.

Dermal fillers with distinct characteristics

Decoria® Intense

Soft Shape. Large particle size and medium firmness for optimal volumizing, midface volume.

Decoria® Voluma

Supportive Shape. Medium strong lifting capacity, for support such as cheeks, NLF and marionette lines.

Decoria® Essence

Delicate Adjustment. A soft voluminous gel, optimal for lips and fine lines.

Decoria® Intense II

(coming soon)

Extra firm. A strong lifting capacity without volumizing, jawline and chin.

Long lasting definition and shape

300 days. 90 patients.

Statistically significant improvement in cheekbone projection at day 300.

At day 300, only minor reabsorption of the filler was measured by 3D imaging (from 1.18 mL filler at baseline to 0.78 at end of study)*
