

# Temporarily Closed

For the safety and concern of everyone, we will be making the difficult decision to close our restaurants for the next week due to COVID exposure. We have always believed in being completely transparent with our guests in every situation. We do this because we genuinely value your trust, loyalty, and respect. The safety of our guests and team members has and will always be our number one priority and we are committed to upholding that standard especially during this pandemic.

- All team members of Amy's Collective will be tested for COVID-19
- No team member will return to work until negative test results have been issued
- A professional cleaning company will be disinfecting all restaurants for the next 48 hours
- Disinfecting of HVAC ducts will be done to ensure germ-free airflow
- We will continue to strictly uphold our on-going COVID-19 procedures and precautions when we reopen
