

ABOUT MPA

Madison Park Academy serves 800 students in grades 6-12. Our school campus has been serving the Sobrante Park neighborhood of East Oakland since 1958.

80.7% of our students are Latino, 14.5% African American, 1.4% Pacific Islander, 1.3% Asian, and the remainder white or mixed race. 77.4% of our students speak Spanish at home.

MPA's vision is that our students graduate prepared for college and career as innovative, creative problem solvers who demonstrate character and strive to build a more just community for themselves and others.

ACADEMICS

MPA ensures college & career readiness through its high expectations and culturally relevant project-based learning. Our annual Expo and Capstone projects prepare students for authentic challenges in the workplace and beyond.

MPA provides many AP and dual enrollment classes. AP offerings include: AP Literature, AP Environmental Science, Honors English, AP Computer Science A & B.

We offer at least four dual enrollment college classes each semester. Previous dual enrollment topics include: Documentary Film Making, Criminal Investigation, and Women of Color.

OUR PARTNERS

MPA's partners include Bay Area Community Resources (BACR), Native American Health Clinic, Atlantic Philanthropies (Rogers Foundation), Linked Learning Office, Oakland Raiders, Oakland School Yard Initiative, Peralta Colleges, Mills College, Mills Teaching Scholars, Alameda County Food Bank, Chevron, BuildOn, Summer Search, East Bay Consortium, Salesforce, Pixar, among others.

Lucinda Taylor, Phd.

Executive Principal, Madison Park Academy 6-12

PATHWAYS

MPA's Silver Certified Linked Learning pathways connect core academic course work and pathway-specific skills to real world careers. They help our students stay in school, earn more credits, be more engaged, and gain greater confidence in their life and career skills.

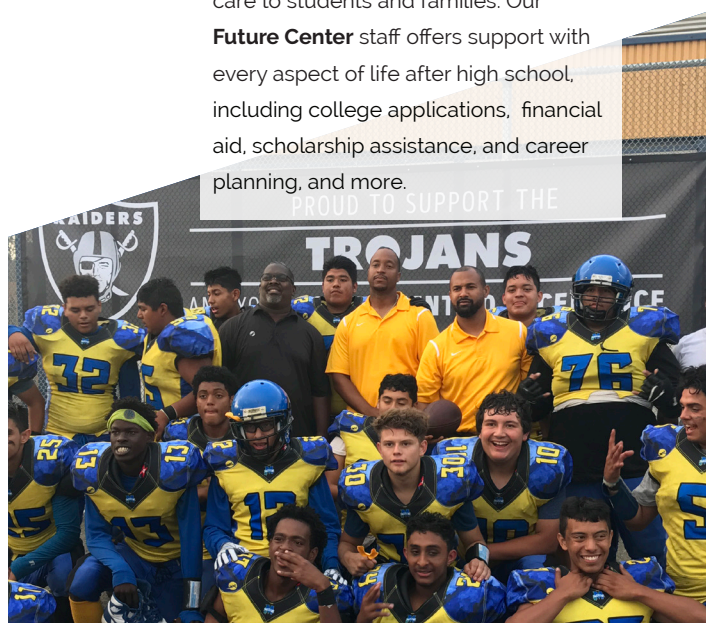

MPA students progress through a rigorous sequence of courses starting with Art Design and Computer Science their freshman year. They then choose either the **Engineering** or **Graphic Design** strand and take a series of three courses that build on one another. Students can deepen their pathway foundations by taking Advanced Art, and AP Computer Science A and B.

SPORTS & PROGRAMS

MPA has a thriving and competitive athletic program for 6-12th grade. Current sports offered include boys football, basketball, soccer, baseball, swimming and track & field; and girls volleyball, tennis, basketball, soccer, softball, swimming and track & field.

MPA offers support programming to impact achievement inside and outside of the classroom. We offer **Restorative Justice** to restore relationships and build community. Our upperclassmen are part of a **mentoring program** to support middle school students, and **math tutors** work closely with teachers to support students.

We have a **full service clinic** on campus offering dental and medical care to students and families. Our **Future Center** staff offers support with every aspect of life after high school, including college applications, financial aid, scholarship assistance, and career planning, and more.

COMMUNITY

MPA offers after school programming for students in grades 6-12. Programs include photography, bike making and riding, cooking and food handling, arts and crafts, Techbridge, gardening, and much more.

BuildOn partners with MPA to provide volunteer opportunities for students, collaborate with teachers, and send students on international trips to build schools in developing countries.

MPA Fact: Madison Park Academy achieved a 90.7% cohort graduation rate for its very first senior class (2017) which is **10% higher** than the district average.
