Almost Edible Cupcake Candles™**

Almost Edible Gourmet Candles has been candle artisans since 1970, handcrafting hundreds of varieties of aromatically & visually appetizing award winning gourmet candles. Authentic in appearance, true in aroma & genuine in presentation. Every candle is custom made to order, and are handcrafted in our "Candle Kitchen" by our staff of "Candle Bakers".

So realistic they will fool even the most experienced pastry chef, and have to be seen & smelled to be truly appreciated. So fragrant that you don't even have to burn them to enjoy their aroma. When burned they will easily scent two to three rooms, with an average burn time of 18 hours each.

The cupcake candles are our all time best seller, and affordable to everyone. Making them a unique and lucrative FUNdraiser.

Your organization will receive 45% to 55% profit of the total sales, based on the method of sale you choose. This program is based on a suggested retail prices \$9 for a single cupcake, 4-packs \$28, and 6 packs for \$38.

We will design and print a full color order sheet with your graphic images, logo, slogan, and fund raising description for each of your fund raising participants.

The candles are delivered in cupcake pastry boxes of four or six packs, or a combination of both. You can choose six different flavor varieties from a list of a dozens of best sellers. Each cupcake includes a decorative cello bag, pastry box, and candle care instructions.

Each of your FUNdraising participant will receive a six pack sample as a sales aid, so that the customer can see & smell each of the varieties, and will be included as part of your total sales.

We thank you for your interest in Almost Edible Gourmet Candles, and look forward to the opportunity of working with you to make your FUNdraising campaign a total success.

Feel free to call us with any questions you may have.

*Kindest regards,
Almost Edible Gourmet Candles*
