

At MZ Audio Distributions (India) we take pride in providing our clients with an exceptional experience center that showcases our products and services in the best possible way.

One of the most important aspects of any experience center is ensuring that the environment is free from distracting noise. That's why we chose 'Sound Tight' for all our soundproofing needs.

Our partners have also thanked us for recommending Sound Tight, as it has helped them improve the sound quality in their own facilities.

We are confident that anyone who chooses Sound Tight will be just as impressed as we have been.

Audio performs at its best when a room is made right and tight.

'Sound Tight' membranes are one significant factor that helps us make it right.

Give it a try, IT WORKS.

A very professional company.

Provided very detailed technical build drawings and offered support throughout the construction phase to the installation team.

Highly recommended.

Dr. Sanjay Pitalia

NRI of the Year 2017 - UK

Your team's attention to detail & expertise in acoustics made a significant difference in our projects success.

The seamless integration of your acoustic solutions into our space has enhanced the over all environment.

Quality of your product & professionalism of your service exceeded our expectations.

We look forward to continued collaboration with your company in future projects.

With STI 612 - 'Sound Tight' Elastomer, you can achieve very good sound isolation when applied in wall panelling.

Its an excellent material for reducing Impact sound & as an underlay below different types of flooring.

We have been using Sound Tight since about 5 years now.

After our first introduction with the quality and performance of their material, we haven't considered using any other option. the price to performance ratio is the best.

Mr.Fenil's knowledge about the product and acoustics helps us a lot in delivering the best solution to our clients.

Mr. Karan Gandhi

Loud & Clear - Ahmedabad

Sound Tight excelled in our home theatre installation, offering complete solutions from design to acoustics.

Their acoustic expertise and choice of materials significantly enhanced the sound quality.

Professional and innovative, they created a theatre that surpassed our expectations, providing a stunning audio-visual experience.

Earlier we would work with imported materials which were very costly and difficult to import... but with 'Sound Tight' not only have we found a reliable acoustic limp mass membrane but a product that actually does what it says.

We have used this product extensively in Auditoriums, studios and home theatres especially where we want a high degree of sound isolation. And it works wonderfully as advertised. The Company is a pleasure to work with and deliveries are done promptly.

'Sound Tight' is definitely a product that we would recommend to anyone wanting a painless experience in the execution of sound isolation panels and walls.

We have extensively used Sound Tight in both our experience rooms and have been very impressed with the performance.

Fenil has been a pleasure to work with right from the get go. His knowledge and experience in all things acoustics is a game changer.

He was involved in our project from the day the first brick was laid and right up to the day we finished calibrating the rooms. His level of engagement and involvement in every project is what really makes the difference.
