Irrigation Technician Job Description

Irrigation Technician – Full time / Pay starting at \$20 per hour

Wandering Soul Services is seeking a dependable and hardworking **Irrigation Technician** to join our growing team. This position focuses on assisting with the installation, repair, and maintenance of irrigation systems for residential and commercial properties. This is a great opportunity for someone looking to build hands-on skills in irrigation services while contributing to sustainable outdoor environments. Training and advancement opportunities are available for motivated team members.

Primary Responsibilities

- Assist with the installation, maintenance, and repair of irrigation systems for residential and commercial properties.
- Help troubleshoot common irrigation issues such as leaks, broken sprinkler heads, and minor valve problems.
- Support programming and basic adjustments of irrigation timers and controllers.
- Operate hand tools and power tools safely to install pipes, sprinkler heads, valves, and fittings.
- Assist with trenching, pipe layout, and system component installation.
- Perform seasonal services including system start-ups and winterization
- Load, unload, and organize materials, tools, and equipment for daily jobs.
- Maintain a clean and safe job site.
- Communicate professionally with team members and clients when on-site.
- Complete documentation of work performed.
- Assist with landscape irrigation projects that incorporate sustainable watering practices and horticultural principles.

Experience and Skills

- 1-2 years of experience preferred in irrigation, landscaping, or related outdoor work, but willing to train the right candidate.
- Basic mechanical aptitude and comfort working with tools.
- Ability to work outdoors in various weather conditions.
- Willingness to learn irrigation systems and water management practices.
- Strong work ethic, reliability, and positive attitude.
- Ability to lift 50+ lbs. and perform physical labor.
- Good communication and teamwork skills.

Education / Certification Requirements

- High school diploma or GED.
- At least 1 year of landscape irrigation experience.
- Valid driver's license with a clean driving record.

Benefits

- Paid time off
- Competitive pay rate
- Opportunities for professional development and certification

Growth Opportunity

This position provides hands-on training and the opportunity to advance into an irrigation specialist or crew lead role as skills and experience develop.

How to apply:

Interested candidates should submit their resume and a cover letter to careers@wanderingsoulservices.com or apply through our website at wanderingsoulservices.com/careers
