Irrigation Technician Job Description

Irrigation Specialist – Full time / Pay starting at \$24 per hour

Wandering Soul Services is seeking a reliable and motivated **Irrigation Specialist** to join our team. This role involves the installation, repair, maintenance, and troubleshooting of irrigation systems for residential and commercial landscapes. The ideal candidate should have strong knowledge of irrigation equipment and water management, as well as mechanical skills. Candidates should have 2+ years of irrigation experience and the ability to ensure systems operate efficiently and in compliance with local building codes and safety standards. This is an opportunity to grow your skills while contributing to sustainable, thriving outdoor environments.

Primary Responsibilities

- Inspect, install, maintain, and repair irrigation systems for residential, commercial, and landscaped properties.
- Troubleshoot and diagnose issues including leaks, valve and pump failures, sprinkler head malfunctions, electrical problems, and water pressure irregularities.
- Program, adjust, and test irrigation controllers, timers, and smart irrigation systems to optimize water efficiency and distribution.
- Use hand tools, power tools, and heavy machinery (including trenchers) to lay pipes, install sprinklers, valves, and control systems.
- Install irrigation systems according to schematics and blueprints, including sprinkler, drip, and smart irrigation systems.
- Perform routine system testing, adjustments, winterization, and de-winterization to ensure year-round performance.
- Source, manage, and organize materials, parts, and equipment required for irrigation projects.
- Maintain accurate records of inspections, repairs, system performance, and maintenance activities.
- Collaborate with team members and property owners to plan and execute irrigation projects and ensure client needs are met.
- Communicate system operations, features, and maintenance schedules to clients while providing friendly, professional service.
- Support daily operations through administrative tasks such as job estimation and remote payment processing.

- Manage or assist with landscape irrigation projects that incorporate sustainable watering practices and horticultural principles.

Experience and Skills

- Proven experience with irrigation systems installation, troubleshooting, and repair in residential or commercial settings.
- Strong mechanical aptitude with hands-on experience using hand tools, power tools, and construction equipment such as trenchers.
- Ability to read technical diagrams and schematics related to irrigation components and landscape layouts.
- Prior work experience in construction or outdoor maintenance environments is highly desirable.
- Professional communication skills to support teamwork and client satisfaction.
- Excellent problem-solving skills combined with a proactive approach to system troubleshooting and landscape care.
- Project or job management within the irrigation industry.

Education / Certification Requirements

- High school diploma or GED.
- At least 2 years of landscape irrigation experience.
- Valid driver's license with a clean driving record.

Benefits

- Paid time off
- Competitive pay rate
- Opportunities for professional development and certification

How to apply:

Interested candidates should submit their resume and a cover letter to **careers@wanderingsoulservices.com** or apply through our website at **wanderingsoulservices.com/careers**
