Examples of Alternatives for Private Capital

01 Venture Debt
Specialist funds that provide debt capital for growth – potentially diluting dilution of equity

02 Private Equity
Traditional PE and VC funds that provide capital for growth – usually debt & equity cocktails.

03 Family Office
Either single or multi office entities – invest in multiple asset classes

04 Sovereign Wealth
Investment vehicles of nations that participate directly in larger deals

05 Corporate VC
Large companies have dedicated VC and PE operations to invest in future technologies relevant to their sector

06 Corporate Strategic Capital
Investments in specific companies – often where a commercial relationship already.

07 Intl Donor Capital
For international projects there is potential for partnering capital from agencies such as ADB, IFC and World Bank

08 Mutual & Pension Funds
Investment & pension funds that increasingly are investing directly in deals or in syndicates.

09 Hedge Funds
Special “thematic” funds such as Pre IPO and turnaround
