OK Fuckheads this is not a cordial greeting,

We are tired of thieves and drug dealers living in 12718 Bauman. You do something about it or we will. You do something *NOW!!!*. We are about to start checking the other properties you own, maybe the drugs being sold are yours ??? Maybe !!! The DEA loves to seize property from drug dealers. Especially when HUD is supporting the houses. There might be several felonies here. Anyway you do something or we will. *NOW!!!*

We know who you are and what you have, we will go after it. When all of your houses burn at the same time do you think your insurance will pay 12 claims when we notify them you are drug dealers. At best can you afford the hassle of them being burned all at once. Go ahead call the police, let them investigate the bullshit going on around your properties.

This is your only warning !!!!!
