

CMMC ADVISORS

**Jerry
Leishman**

jerryleishman@cmmcadvisors.com
206-484-9936

Jerry is a trusted advisor and advocate for in-house counsel, compliance officers and senior leadership to ensure they can effectively navigate complex regulatory, legal, and contractual risks and obligations. He currently leads CMMC Advisors supporting Defense and Critical Infrastructure suppliers of all sizes and cybersecurity postures. Prior to CMMC Advisors, Jerry was EVP & National Security & Compliance Director at CORTAC Group and 15-year employee at Microsoft.

Jerry is active nationally and was an plank member volunteer of the CMMC AB Standards Workgroup where he earned a Presidential Volunteer Service Award for his contributions. He is currently the Vice-Chair of the CMMC Industry Standards Council (CISC), Co-Chair the Software for Defense non-profit, Certified CMMC Assessor (CCA), Certified CMMC Professional (CCP) and a Provisional CMMC Assessor (PA) and Registered Practitioner (RP).

Jerry speaks nationally to Defense Industrial Base (DIB) executives on Cybersecurity and DFARS/CMMC. He enables leaders to understand their role and responsibilities with customers, partners, suppliers, and government stakeholders. He is closely aligned with the CMMC ecosystem and technology leaders that are foundational to delivering world-class solutions for the Defense Supply Chain.

**Kevin
Allison**

kevinallison@cmmcadvisors.com
425-503-7159

Kevin is an accomplished Executive Advisor with over 25 years of experience leading customer-centric service delivery, consulting, and operational efforts for global technology leaders like Qualtrics and Microsoft. His areas of expertise include Security & Compliance, Customer Experience (CX) & Success, Consulting & Support Services Delivery, and Business Strategy, with a particular passion for enhancing customer engagement and retention.

Specializing in both start-up and enterprise environments, Kevin has focused on software development, cloud/SaaS, e-commerce, and regulatory compliance. His executive leadership and guidance have helped organizations reshape their approach to sales, onboarding, and customer service, boosting both loyalty and profitability. Kevin plays an active role nationally as a plank member of the CMMC Industry Standards Council (CISC), is a Certified CMMC Professional (CCP), and co-founder of CMMC Advisors.

Known for his ability to build trust-based client relationships and revitalize struggling business models, Kevin has consistently driven revenue growth through high CSAT ratings. His career demonstrates a history of leadership promotions, where he has led, mentored, and empowered high-performing teams. He excels in aligning business strategies with customer needs, working closely with internal and external stakeholders to deliver transformative, high-impact projects.

CMMC Advisor Capabilities & Services

CMMC Executive & Leadership Workshop (3 Hours)

A focused session for executives and key stakeholders that explains what CMMC is, why it matters, and how it impacts your business. We align leadership on risks, responsibilities, and next steps to support compliance and secure future DoD contracts.

CMMC Level 1 Compliance Package

A simple, end-to-end solution for small businesses needing CMMC Level 1 compliance. We assess your environment against the 15 required controls, implement fixes and policies, prepare your documentation for self-attestation and SPRS submission, then provide annual check-ups to maintain ongoing compliance.

Outcome: CMMC Level 1 compliance you can confidently attest to—without overcomplication.

CMMC Level 2 Compliance Package

A practical, end-to-end solution to help your organization achieve and maintain CMMC Level 2 certification. We identify and classify your FCI and CUI, perform a gap analysis, build a prioritized compliance plan, implement required policies and security controls, prepare audit-ready documentation for your C3PAO assessment, and provide annual maintenance support for ongoing compliance and senior official affirmation.

Outcome: A fully implemented, audit-ready CMMC Level 2 program you can sustain with confidence.

CMMC System-in-a-Box (FCI/CUI On-Premise Enclave)

A turnkey, on-premises secure environment for CMMC and ITAR compliance that includes pre-configured hardware, software, security controls, compliance tooling, quarterly reviews, documentation updates, and ongoing technical support with three service tiers—Reactive (issue response), Responsive (proactive monitoring), or Predictive (continuous optimization). Outcome: Low cost, fast deployment, sustained compliance, so you can stay focused on your mission.

CMMC Advisor Level 1 & 2 Packages

CMMC Level 1 Compliance Package

Assessment, Implementation, & Maintenance

- **Assessment** - Identify, inventory, & classify, all Federal Contract Information (FCI). Perform Level 1 (15 NIST 800-171) control gap analysis and establish mitigation recommendations.
- **Implementation** – Implement remediation activities, including policy and procedure development, technology deployment, configuration management, and organizational change enablement. Ensures all required controls are properly adopted, configured, documented, and integrated—supported by coordination between internal teams and external service providers.
- **Self-Attestation** - Ensure the compliance program is audit-ready, fully documented, and positioned for a successful self-assessment and posting SPRS score to DoD.
- **Maintenance** – Annual compliance maintenance and advisory to ensure ongoing conformance and annual affirmation by senior official.

Outcome: A fully implemented, audit-ready CMMC Level 1 (15 controls) program built to pass and sustain certification.

CMMC Level 2 Compliance Package

Assessment, Implementation, & Maintenance

- **Discovery & Recommendation (Current State)**
A critical foundational step to identify, inventory, and classify all Federal Contract Information (FCI) and Controlled Unclassified Information (CUI). Provides complete visibility into data locations, access pathways, and protection requirements to inform scoping and controls implementation.
- **Planning & Design (Future State)**
Comprehensive planning that positions CMMC as a strategic organizational change initiative. Includes gap analysis, prioritized remediation roadmap, governance framework design, resource and budget planning, and a phased implementation strategy designed to accelerate certification while reducing risk and cost.
- **Implementation (Gap Mitigations)**
Full-scale execution of remediation activities, including policy and procedure development, technology deployment, configuration management, and organizational change enablement. Ensures all required controls are properly adopted, configured, documented, and integrated—supported by coordination between internal teams and external service providers.
- **Audit Preparation & Readiness**
The final phase of the CMMC lifecycle, ensuring the compliance program is audit-ready, fully documented, and positioned for a successful external assessment. Includes evidence validation, internal readiness reviews, mock audits, and final preparation to ensure a smooth and confident C3PAO evaluation.
- **Maintenance** – Annual compliance maintenance and advisory to ensure ongoing conformance and annual affirmation by senior official.

Outcome: A fully implemented, audit-ready CMMC Level 2 program built to pass and sustain certification.

System-In-A-Box (On-Premise FCI/CUI Enclave)

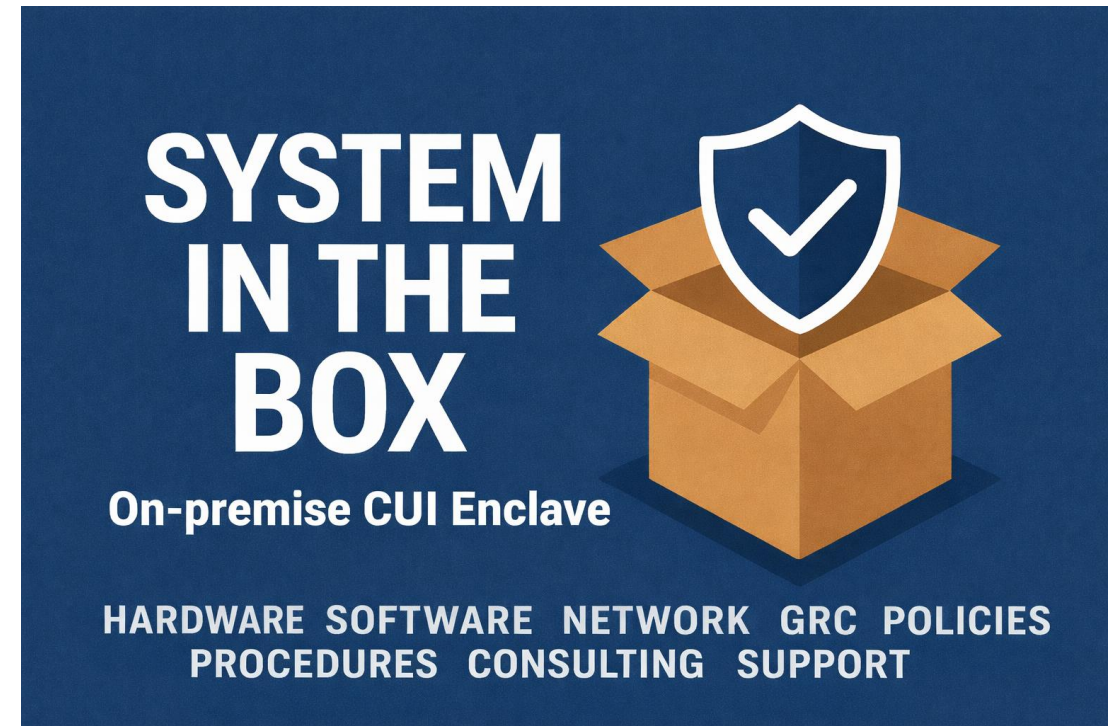

System-In-A-Box (On-Premise FCI/CUI Enclave)

A turnkey, on-premises secure enclave solution engineered for CMMC, ITAR, and other regulated environments. Includes pre-configured hardware, software, networking infrastructure, GRC tooling, and complete system documentation. Ideal for organizations requiring on-premises control. Delivered with a CMMC Ready comprehensive warranty, continuous system monitoring, and proactive technical support.

Maintenance & Support Services

Year-round Advisory, Compliance and Support subscription services designed to maintain continuous compliance readiness. Includes quarterly business reviews, control effectiveness assessments, documentation updates, and annual assurance letters. Available in three customizable service tiers:

- **Reactive** – Issue response and remediation support
- **Responsive** – Proactive monitoring with quarterly touchpoints
- **Predictive** – Continuous optimization with predictive risk management

A dark blue rectangular graphic with white and orange text and icons. On the left, the words 'SYSTEM IN THE BOX' are stacked vertically in large, bold, white, sans-serif font. To the right of this text is an orange cardboard box with its top flaps open, and a white shield with a blue checkmark inside is positioned above the box. Below the box, the text 'On-premise CUI Enclave' is written in a smaller, white, sans-serif font. At the bottom of the graphic, the words 'HARDWARE SOFTWARE NETWORK GRC POLICIES PROCEDURES CONSULTING SUPPORT' are listed in a small, white, sans-serif font, arranged in two lines.
