

President's Message

Mil Potrero Mutual Water Company

May 30, 2023

Fellow Shareholders:

Once again, we had a busy year since our last message to you on May 20, 2022. We moved on to our 53rd year of serving Pine Mountain Club on January 25, 2023. Mother Nature provided us with a good moisture year which allowed the Board to reduce our long-standing, Severely Restricted Water Supply Condition to Moderately Restricted Status at our April 2023 Board Meeting.

However, one good winter does not mean that our 10-year drought is over and can be forgotten. Let us be aware that the water supply is not guaranteed and that the prudent consumer should continue to practice, as much as possible, the conservation techniques we've learned over the last few years.

If you want any questions answered, we encourage you to go to our Website at www.mpmwc.com to view our Governing Documents including Corporation Code, "By-Laws, Rules and Regulations and Rates" or call the office at 661-242-3230.

Sincerely,

Robert A. Lame, President
Board of Directors
Mil Potrero Mutual Water Company
