

**President's Message**  
**Mil Potrero Mutual Water Company**  
**May 18, 2026**

Fellow Shareholders,

As we move into another year of service at Mil Potrero Mutual Water Company, I'm proud to report that 2026 marks our 56th year of delivering clean, reliable water to the Pine Mountain Club community. Having lived here full time since 1971, I've had the privilege of watching this community grow, and I remain committed to protecting and improving the infrastructure that supports our daily lives.

Even with the benefit of a few wet winters, it remains critical that we continue to protect our single-source aquifer. The water supply in our mountain community is limited, and we must all remain mindful stewards of this essential resource. The conservation habits we've developed over the past several years are just as important today as they have ever been.

This past year, MPMWC staff have worked hard to stay ahead of aging infrastructure through ongoing maintenance and long-term planning. We continue to move forward with important Capital Improvement and Replacement Projects designed to strengthen system reliability and resilience.

One of the most significant recent milestones is the installation of Well Number 11, located on the golf course near the tennis courts. This new well will enhance our system's long-term supply capacity and provide added reliability for both domestic use and fire protection. It represents a critical investment in securing the future water needs of our community.

In addition to this new source, MPMWC will continue to fund Capital Improvement Projects and maintain adequate reserves to ensure the continued reliability of our most essential infrastructure.

All of this work is funded entirely by our shareholders. We do not receive any outside funding. As someone with a professional background in water systems and excavation through my business, High Country Engineering, I can assure you that every dollar is being invested with long-term reliability, regulatory compliance, and community sustainability in mind.

If you would like to learn more about our projects, pay your bill, review water quality reports, or access conservation tips, please visit [www.mpmwc.com](http://www.mpmwc.com) or contact our office at (661) 242-3230, Monday through Friday, 8:00 AM to 4:30 PM.

Thank you for your continued trust and support. I'm proud to serve this community and help guide our water system forward.

Sincerely,

Kristofer Staidle, President  
Board of Directors  
Mil Potrero Mutual Water Company
