William Martin, Secretary

Mil Potrero Mutual Water is presently operating under a declared **Normal Water Supply Condition**. Voluntary compliance with the guidelines this declaration effects will aid our community. **Guidelines of the Normal Water Supply Condition are identified below for your information.**

WATER CONSERVATION

Normal Water Supply Condition

- A. Use of water for washing vehicles, boats, construction cleanup, dust control or similar uses shall be attended and have *hand-controlled watering devices*, typically including spring loaded shutoff nozzles.
- B. Use of water to clean buildings, decks or privately owned paved surfaces may only be by the use of low water consuming appurtenances such as pressure washers, water brooms or similar devices.
- C. Use of water to clean community streets, parking lots and similar community uses may be accomplished solely by Pine Mountain Club Property Owners' Association or its contractor and shall be coordinated in advance with Mil Potrero Mutual Water Company.
- D. Use of water resulting in runoff lasting more than five (5) minutes is prohibited.
- E. Restaurants may serve drinking water only in response to a specific request by a customer.
- H. Allowing a leak of .25 gpm or greater to continue more than two weeks after knowledge of the leak is prohibited and may result in a shut off by MPMWC until the leak is repaired.
