

TWO SOLUTIONS WITH ONE STAND.

Is it a stand? Is it a chair? It's both.

Keep your upright bass secure whether it's in the orchestra pit, a darkened stage, or during rehearsal with the Amazing Bass Stand. It's made of rugged, medium density fiberboard (MDF), and it's exterior grade and formaldehyde free.

As a chair, it can support 500+ lbs. and has a comfortable foam seat. Your feet rest comfortably for a natural and proper playing position.

The unique design of the Amazing Bass Stand makes it easy to transport and it breaks apart to store flat. Available in multiple heights, it comes in a natural finish and the premium finish, Concert Black.

CONCERT BLACK
The premium option of the Amazing Bass Stand.
