

**MANDOLIN STAND**  
Natural look with cork padding  
to protect your instrument.

# DESIGNED FOR SMALLER STRINGED INSTRUMENTS

**Adapting a unique design for  
smaller stringed instruments.**

Introducing the **Mandolin Stand**.

As part of the X Stand family, we now offer an option specifically for the mandolin. Made of Baltic Birch Plywood with a hand-rubbed oil finish, it has a natural look that uses cork padding that grips your instrument to stabilize it in the stand. It's safe for lacquer finishes at the contact points where the instrument touches the stand.

With its tabletop size, it's a perfect way to display your instrument while enticing you to play at the same time.

**For Smaller Stringed Instruments  
(violins, violas, ukuleles and mandolins)**

- Unique "X" hinged design
- Protects edges of instruments
- 18 inches in height (45.72 cm)
- Weighs approximately 2.9 lbs (1.315 kg)
- Protects edges of instruments
- Safe for lacquer finishes
- Folds flat for easy transport

Conserving players and their  
instruments for years to come.
