

DESIGNED FOR SMALLER STRINGED INSTRUMENTS

Adapting a unique design for smaller stringed instruments.

The unique hinged "x" format of the Amazing X Stand has been adapted for smaller stringed instruments like violins, violas, mandolins and most ukuleles. Compact and lightweight, it easily folds flat and its tabletop size is an ideal way to display your instrument and entice you to play at the same time. It's safe for lacquer finishes at the contact points where the instrument touches the stand.

The **Mini X Stand** in Concert Black is made of black rugged, medium density fiberboard (MDF), and weighs 5.1lbs. (2.31332 kg). It's exterior grade and formaldehyde free.

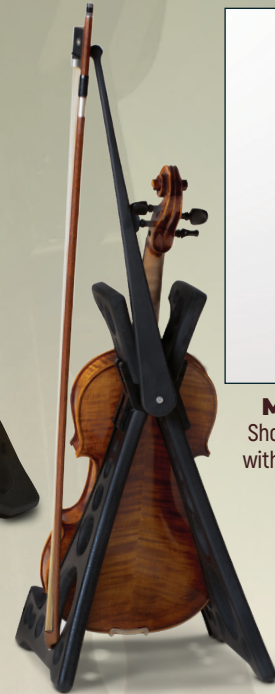

The **Mandolin Stand** is made from Baltic Birch plywood with a hand-rubbed oil finish. It has a natural look that uses cork padding that grips your instrument to stabilize it in the stand and weighs approximately 2.9 lbs. (1.315 kg).

For use with violins, violas, ukuleles and mandolins

- 18 inches in height (45.72 cm)
- Unique "X" hinged design
- Protects edges of instruments
- Folds flat for easy transport
