12 weeks (10/3 - 12/19) w/Class Limit of 16

Description - Love to perform different musicals? Love acting? Love singing? Have lots of experience already but want to grow as a performer? This class is for you! Actors will work with different scene partners & prepare selections from a show of your choice based on show category given. There will be 3 scenes total each artist will work on in this class, with a different scene partner each time. The categories will be ([Golden Age](#), [Contemporary](#), [Rock](#) / [Country](#) / [Jukebox](#)) For the final showcase, you will perform one of the categories based on the artist's preference. This class combines performance of music, as well as the scenes that precede your selected song... both fully blocked & choreographed. You will work with scene partners and present your scenes to the class/teacher. You will have the opportunity to fully create each of these scenes on your own with your scene partner, getting guidance along the way. Each scene will be a 2 week/2 class process. The first week you will work together in class to find a scene & scene partner, as well as work on it. We will then talk as a class about each scene and the things that are important while learning it. You will then be in charge of memorizing & prepping your scene for the next class. Work outside of this class is a must. We will talk about props, costumes/dressing the part, vocal challenges, blocking, intentions, your "why?", subtext and so much more. This class is for the experienced performer who is motivated to do the work it takes to become better. Final invite showcase on the last class. (Masks are optional for now as we follow Performance Studios requirements - subject to change)
