To Whom it May Concern,

I am writing to highly recommend Niemah Nefertiti for the Honorary Doctorate Degree in Nutrition Sciences. I have had the distinct privilege and honor of knowing Niemah Nefertiti for a year and 6 months, during which time I have witnessed a remarkable journey of healing and transformation.

As someone who has seen firsthand the debilitating pain that Niemah Nefertiti has experienced due to lupus, I can attest to the devastating impact it has had in her life. I watched her not only regain her good health, but she completely eradicated lupus from her system. This transformation is a testament to her dedication, knowledge, and also the effectiveness of the healing protocols she advocates for.

After successfully completing the Stanford School of Medicine certification program, Niemah Nefertiti has empowered countless individuals, including myself, to embark on their healing journeys. I personally experienced the incredible benefits of the 4-week Eradication Detox Protocol. During that time, I felt and looked more amazing than I had in years, and the positive changes in my health have been nothing short of miraculous.

Currently, as I engage in the Transformative Life Plan, I continue to witness the life changing impact of Niemah Nefertiti's expertise. The holistic approach, and the personalized care she provides, has not only changed my life, but it has also inspired me to assist other women who are dealing with autoimmune disorders.

It is with great enthusiasm that I recommend Niemah Nefertiti for the Honorary Doctorate Degree. She is a skilled practitioner, and she is also a compassionate guide who brings hope and healing to those in need. I am confident that Niemah Nefertiti will make a significant contribution to her community, and will be a beacon of hope for the world.

Thank you for considering this recommendation.

Sincerely,

Toni O'Neal
