Iberian Red Deer Rut (Cervus elaphus)

IBERIAN RED STAG HUNT – SPAIN 2025

Wild Spain. True Rut. One Last Roar.

Step into the untamed heart of Spain during the rut, when the Iberian red stag, the monarch of the sierras, shakes the mountains with his thunderous roar. Across oak groves, rolling dehesas, and rugged highlands, the dawn air vibrates with primal calls as stags battle for dominance, clashing antlers in a timeless spectacle of strength and passion.

Your hunt unfolds in some of Spain's most exclusive territories, where tradition and wilderness meet. From representative trophies to medal-class giants surpassing 200 CIC points, every stalk is a pursuit of excellence, guided by the echoes of the rut. This is more than a hunt. It is a symphony of nature at its rawest, intense, authentic, and unforgettable. With Artemis Select Hunts, every step is an immersion, every encounter a memory, and every trophy a story written in the roar of Spain.

When Spain roars, legends are written.
