

SLIDING DOOR SYSTEM S3000 AIR

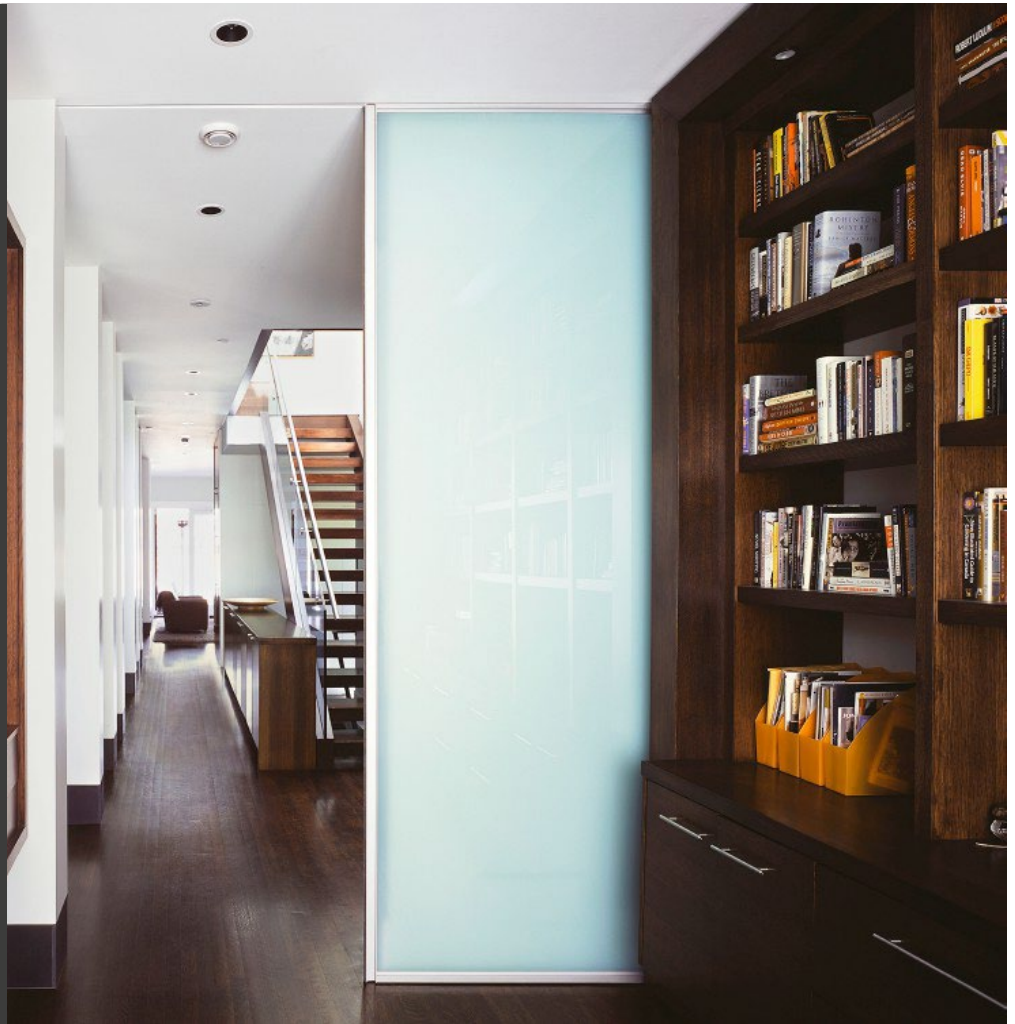

Sliding Door S3000

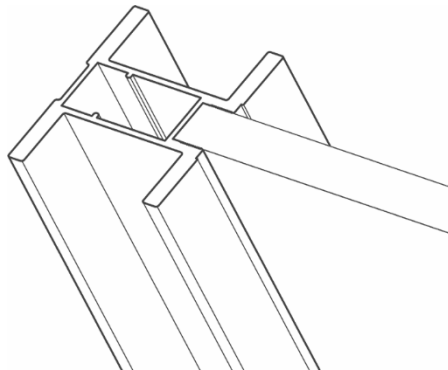

AIR Profile color: Silver
anodized

Panel material: Satin-finished
tempered glass, White

Panels/surfaces shown may vary depending on
availability

The sliding door is hung from rollers that are guided by an insert profile. Only one guide point is required per sliding door at the bottom (base plate with rollers) to prevent the door from swinging. In addition to the ceiling fixing, a wall mount is also available.
