

The Victor is excited to announce the groundbreaking of its third and final, seven-unit luxury apartment building.

Given the shortage of housing in Teton Valley, *The Victor* continues to support the hardworking families who make our vibrant community what it is. At the corner of Dogwood and Beryl, the new structure will be a mix of one, two and three-bedroom units in the heart of Victor.

Our intent is to create continuity in form and substance across all three buildings while simultaneously refining the interiors to remain modern and contemporary living spaces. The Victor Apartments offers high-end in-unit amenities; spacious, open-floor living; and high ceilings with plenty of windows – some even with views of the Tetons!

Estimated completion is Summer 2022; we will receive applications for tenancy next Spring. Zadok Construction, Inc. of Spanish Fork, Utah is the General Contractor.

“Very happy to be back in town” said Zadok’s President Ben Smith. “Zadok is appreciative of all the relationships developed previously and are glad to have this opportunity.”

To celebrate, The Victor Apartments is hosting a tamales food truck onsite on July 22, 2021 at 12:00 pm. Tenants and neighbors are encouraged to come, join our community, and meet our builder.
