

**Wherever, Whenever  
Communications**

## **Video | Phone | Chat | Contact Center | Files**

### **Desk Phone**

Pre-configured phones connect to the feature-rich Unite service wherever they're plugged in.

### **Laptop**

The Unite Desktop App allows users to place calls, chat, host or join a video conference, and share files right from their Mac or PC.

### **Mobile Device**

Seamlessly switch your workspace to any Apple or Android smart device with the Unite Mobile App.

### **Integrated with Contact Center**

Drive even more employee productivity and a better customer experience by accessing advanced call features integrated in Unite.
