Focused learning session: Tetralogy of Fallot

Anatomy and physiology of lesion
Antenatal journey
Birth-planning for surgery
Challenges
Surgical options
Transitioning to adulthood
Patient story

Join us for this jam packed education session to enhance your knowledge in congenital heart disease!

The Network is inviting a host of experts in CHD to deliver this session which will focus on one specific congenital heart defect, Tetralogy of Fallot. The session aims to provide an insight into the journey from diagnosis to adulthood for a baby born with Tetralogy of Fallot.
