

Value of Education and Training?

Kaye Walsh

Lead Nurse NENC-CHDN

Patient safety should be the golden thread of learning that connects all staff working in the NHS, across all disciplines”

Commission on Education and Training for Patient Safety (HEE, 2019)

Patient safety requires a system wide approach with knowledge, skills and culture at the heart

Health Education England (2019)

Competence, Capability and Confidence

Vision

Enrich the learning culture across the region-
increasing accessibility to CHD education and skills
training

- Ensure a standard of CHD care delivery across the region
- Share good practice/manage potential risks
- Enable change where change is needed
- Utilise rich data
- Engage our patients

Challenges and expectations

- Newly established regional network-potential to increase reach across the region
- What's good now? Who is delivering education?
- Survey monkey
- Multi professional requirements
- Develop platform to enable staff to raise and respond to concerns around CHD patient safety
- Lifespan holistic approach

Delivery and availability

- Webinars
- Establishing key stakeholders to coordinate education across the region
- Collaborating to increase opportunities for inter-professional learning
- Northern/National CHD events

Future engagement

- Continuous engagement to identify learning needs
- Skills assessment regionally
- Development of education programme
- Regional education event
- Ensure equitable access to CHD education and skills training across the NENC patch
