

## OFFICIAL NOTICE

The Washington State Department of Ecology (DOE) has recently issued an emergency curtailment order. This curtailment is effective immediately, due to a third consecutive year of drought because of inadequate snowfall and below-average precipitation.

To comply with this order from the DOE, the Town of South Cle Elum is enacting mandatory water conservation measures beginning October 6, 2025 ending on October 31, 2025, unless conditions change.

**Effective October 6, 2025, the Town hereby Orders:**

- **All outdoor water use is prohibited.** This includes lawn irrigation, car washing, filling hot tubs and any other outdoor use.
- **Indoor water conservation is required.** This means reducing indoor water use as much as practicable by limiting non-essential use, fixing leaks and using water-efficient practices.

These measures are essential to protect limited water supplies and to comply with Washington State requirements. **Thank you** for your immediate attention to this matter.
