# OUR STORY

**BUILT WITH PRECISION  
EVERY TIME, THE FIRST TIME.**

**GOD MADE PRECISE  
CONSTRUCTION INC.**  
CGC1531650

**GodMade PRECISE Construction Inc.**  
was founded in **2021** from real experience  
in the construction field.

**THE FOUNDATION WAS BUILT EARLY.**  
As a highly skilled carpenter, **Miguel Rebeca** developed a strong standard for precision, detail, and true craftsmanship. That foundation began working alongside his father, **Jean Rebeca**, where he was taught the value of doing things right and maintaining high standards in every detail.

**THE STANDARD NEVER CHANGED.**  
As he continued working in the field, that standard remained consistent within him— even when others approached the work differently.

**CONVERSATIONS THAT SHAPED THE VISION.**  
Day after day, he returned home reflecting on his work, carrying a strong conviction that construction should be done with skill, structure, and precision— without compromise. Those reflections became conversations about what construction should be and what it would look like to build something with that same level of consistency and care.

**A PARTNERSHIP OF ALIGNMENT AND PURPOSE.**  
In those conversations, his wife, **Santresa Rebeca**, recognized the standard he carried and stood firmly in agreement, encouraging him to move forward with what he knew was right. From that shared vision, a decision was made.

GodMade PRECISE Construction Inc. was established to reflect that standard—a company built on **skill, precision,** and **accountability.** where quality is not optional and every project is executed with **purpose.**

Today, that same standard drives everything we do.

**BUILT WITH PRECISION—  
EVERY TIME, THE FIRST TIME.**
