CT Custom Aquatics Vacuum Service and Repair Center!

We're an Authorized Aqua Products and Maytronics® Service Center and we service all major brands of automatic pool cleaners.

CT Custom Aquatics' trained, experienced technicians can help with all of your pool vacuum repair and servicing needs. Whether it is as quick and easy as replacing a filter bag or drive belt or an extensive repair of a motor and cord, our service center is completely stocked with parts to help minimize your pool vacuuming downtime.

Get your vacuum tested and running as good as new before the busy season by having it serviced today.

Please contact us to have your pool vacuum serviced by the industry's best!

Manual Pool Vacuums

The Riptide SL Pool Vacuum has many innovative features that separate it from the competition. The power cable plugs directly into the cart which allows you to easily coil the cord which also prevents damage to the cable. The Riptide features include a locking bag ring to keep debris from incidentally escaping; a stair roller for those pools with access issues; a ten year case warranty and much more. Please note: pole, battery and battery charger sold separately.

RPT040	SL40 Riptide Vacuum w/ 40' Cord	\$1,650.00
RPT060	SL60 Riptide Vacuum w/ 60' Cord	\$1,720.00

Wildcat Portable Vacuum includes: Sta Rite pump, 100FT cord and 2" valves & fittings. Wildcat vacuums available in 1 HP, 1.5HP & 2 HP with 110Volt & 220 Volt options.

P1 Pulsar Chlorine Feed System Calcium Hypochlorite Chlorine Feeder

Specifications:
Height 31" 78.75 cm
weight (empty) 15 lbs
Tubing size (O.D.) 1/2"
Capacity (weight of briquettes) 27 lbs
Feed-rate range (AvCl/day)
minimum ~0.5 lbs
maximum ~25 lbs
Recommended Pool Size:
500- 50,000 gallons

PUL500 Call for Pricing*

P500 Pulsar Chlorine Feed System Calcium Hypochlorite Chlorine Feeder

Specifications:
Chlorinator height 40"
Chlorinator weight (full) 465 lbs
Chlorinator weight (empty) 165 lbs
Capacity:
300 lbs Pulsar® Plus Dry Chlorinator Briquettes
(equivalent to 204 lbs available chlorine)
Feed Rate:
Pulsar® Plus Briquettes: 25-500 lbs of available
chlorine per day
Recommended Pool Size:
50,000-600,000 gallon un-stabilized
100,000-1,600,000 gallon stabilized

Pulsar Precision Chlorine Feed System Calcium Hypochlorite Chlorine Feeder

Feeder Specifications
Width: 25.3"
Depth: 29.8"
Height: 40.9"
Water Inlet Size: 1/2" MNPT
Solution Outlet Size: 1/2" MNPT
Operating Weight: 220lbs
Shipping Weight: 60lbs
Dry Chemical Capacity: 70lbs
Feed Rate Range: 5-92lbs/day AvCl
0.2-8lbs/hour AvCL
Electrical: 115 VAC
Operating Temperature: 40-120 degrees F

The Pulsar® Acid Plus Feeder provides:

- Reliable pH balancing
- Features a compact rugged roto molded body
- Custom color to distinguish between other feeders
- Acid introduced to venturi removes scale and minimizes maintenance
- Back flow prevention
- Shares booster and venturi loop
- Dry acid chemical
- 60lb Dry Acid capacity

CO2AUTO \$821.00

The Eliminator CO2 Dual tank auto switch over is a completely automatic gas cylinder changeover system that is nonelectric. Designed for easy installation, drastically lowers the chance of running out of CO2 and reduces the risk of injury from constant changing of tanks.

CO2 Feed Systems are an effective and cleaner alternative that utilizes Carbon Dioxide to control the PH levels in your pool. CO2 systems help eliminate the handling of acid by your employees while also reducing the corrosive fumes in your filter room.

CH250 \$2,450.00

Chemtrol 250
The 250 Controller automatically reads the Chlorine and PH levels in a pool/spa via an ORP Probe and PH Probe.

Specifications:
ORP Control range from 200 to 995MV
PH Control range from 4.0-10.0
FEED Modes
Manual, automatic, proportional Adjustments
Setpoint, calibration, limits, feed rate

Chemtrol 2100

The PC2100 Controller gives you capability of remote Access to your controller by using the CHEMCOM Software. The PC 2100 also gives you the option of a Free Chlorine Sensor to enable PPM readings on the screen.

Specifications:
ORP Control range from 200 to 995MV
PH Control range from 4.0-10.0
PPM Control range from 0.1 to 10 PPM
Remote Operation:
CHEMCOM remote software.

CHE2100 \$3,400.00

Chemtrol 3000

The PC3000 Controller gives you all the capabilities of the PC2100 including remote access and PPM readings. The PC3000 also includes automatic Data logging as well as lets you control your pool heater from the interface of the controller.

Specifications:
ORP Control range from 200-995MV
PH Control range from 4.0-10.0
PPM Control range from 0.1 – 10 PPM
Remote Operation:
CHEMCOM remote software.
Data Logging:
On-board memory for 999 tests with port to download and printing.

Horizontal Stark SS Series
Sand Filter
Call For Pricing

FEATURED HIGHLIGHTS

- All vessel models are NSF listed.
- Manway cover has integral viewport for Internal filter observation.
- Solid composite construction - does not employ a bladder.
- Schedule 80 Face Piping is fully assembled.
- Vessels feature proprietary all-weather exterior coating with UV inhibitors.
- Vessels greater than 40 SF utilize an innovative 8" air-actuated backwash valve.
- Several backwash control options available.
- Butterfly-valve options including linked tandem valves are also available.

FEATURED HIGHLIGHTS

- All vessel models are NSF listed
- Solid composite construction - does not employ a bladder.
- Vessels can be stacked to minimize foot print. Designed for Seismic Zone 4 loading with additional supports or braces.
- Vessels feature proprietary all-weather exterior coating with UV inhibitors.
- Several backwash control options available.

Horizontal Stark S Series
Sand Filter
Call For Pricing

FEATURED HIGHLIGHTS

- All vessel models are NSF 50 listed.
- End-manways provide easy access for service and maintenance.
- Schedule 80 Face Piping is fully assembled and in our factory for ease of installation.
- Clear backwash valve (most models) provides for intuitive operation and troubleshooting.
- Stark valves and several control options make backwashing simple.
- Unparalleled tank construction and exterior all-weather coating.

Horizontal Stark SS Series
Sand Filter

WaterCo Micron Horizontal Commercial Filter

- Micron horizontal filters are available with a 500mm (M) filter media bed and a 1200mm (MD) filter media bed.
- Elliptical positive sealing manways.
 - Flanged port of up to 10".
 - Hydraulically balanced distribution and lateral system.
 - Fibreglass wound tank, UV and corrosion resistant.
 - Large stable filter base for stable floor mounting.
 - Manual drain

WaterCo Micron
Horizontal Commercial Filter
Call For Pricing

WaterCo Side Mount
Deep Bed Filter
Call For Pricing

The filter's 1000mm media bed ensures that finer dirt particles and colloidal substances are retained to a far greater level than a filter with a shallower bed depth. The filter's greater bed depth permits efficient use of mixed bed filter media and water treatment media such as granular activated carbon.

The fibreglass filters are ideal for retrofitting. They can be delivered in two parts and assembled on site in the plant room. The two halves seal perfectly, using an o'ring and held together by a flange using bolt and nuts.
Key features:

Durability: Fibreglass vessels have a mechanical and chemical

Resistance superior to steel, plus fibreglass does not rust or corrode and is able to withstand damage from many types of water treatment chemicals

Lightweight Fibreglass tanks weigh only one third that of steel vessels, whilst maintaining the same level of strength

WaterCo Hydron
Split Tank Filter
Call For Pricing

Regenerative Media Filters (RMF's) are a more efficient alternative to sand or D.E. filtration. RMF's such as the Neptune-Benson's Defender® filter use up to 90% less water, take up a quarter of the space, and use less energy than traditional sand filters. Regenerative media filters are also more effective at removing contaminants. The Defender filter is able to remove particles as small as 1 micron from water while traditional sand filters generally only remove particles in the 20 micron range. The Defender Regenerative Media Filter achieves the highest quality of water by removing particles down to 1 micron. This is 20 to 30 times finer than sand. Benefits include:

- Extension to the life of the filter
- Unsurpassed water quality
- Improved UV disinfection performance
- Up to 30% chemical consumption savings
- Controls turbidity to levels better than those required for drinking water.

Neptune Benson Defender Filter
Call For Pricing

Neptune Benson SHFFG
Horizontal Sand Filter
Call For Pricing

The SHFFG horizontal fibreglass high rate sand filter is designed with solid fibreglass flange connections and internal PVC parts. The SHFFG can be used as a single, dual, even as a stackable filter system to accommodate most filter room space.

Marlow 3B Series Pump
Call For Pricing

Self-priming centrifugal swimming pool pumps with integral suction strainer for commercial pool applications.
3B28EC – 3B32EC

Features and Benefits

- Cast Iron Construction
- High Efficiency Impeller
- Multi-vane Replaceable Diffuser
- Rugged Casing with 4" Suction and 3" Discharge
- Female NPT Pipe Connections
- Integral Suction Strainer with Stainless Steel Basket
- Ease of Maintenance
- Self-lubricating Mechanical Seal
- Back Pull-out Design
- Nationally Known Brand JM Shaft Motor
- NSF Certified

Self-priming centrifugal swimming pool pumps with integral suction strainer for use on larger commercial pool and waterpark applications.

Features and Benefits

- Rugged Cast Construction
- High Efficiency Bronze Impeller
- Multi-vane Cast Iron Replaceable Diffuser
- Cast Iron Casing with 6" Suction and 4" Discharge
- Female Flanged Pipe Connections – Integral Suction Strainer with Stainless Steel Basket
- Ease of Maintenance
- Self-lubricating Mechanical Seal
- Back Pull-out Design
- Nationally Known Brand JP Shaft Motor
- NSF Certified

Marlow 4SPC Series Pump
Call For Pricing

End suction centrifugal pump line available in both close coupled and frame mounted configurations allow users to meet exactly most flow conditions on commercial pool and waterpark applications.

Features and Benefits

- Rugged Cast Iron Construction
- Highly Efficient, Enclosed Bronze Impeller
- Cast Iron Casing with 125# Flat Face Flange Connections
- Broad Hydraulic Coverage
- Replaceable Shaft Sleeve Protects Shaft
- Ease of Maintenance
- Self-lubricating Mechanical Seal
- Back Pull-out Design
- Nationally Known Brand Motors
- NSF Certified

Marlow 530 Series Pump
Call For Pricing

The EQ Series Pump is the commercial pool industries only all plastic, non corrosive pump. EQ Pumps are available in flows up to 800 GPM, single & three phase, and from 3 HP to 15 HP.

- Certified to NSF/ANSI 50
- Flow: up to 4592 gpm (750 m3/h)
- Large graphical display for displaying the time dependency of the UV sensor signal with trend indication.
- Electronic power supplies with automatic set point control to ensure maximum efficiency at lowest power usage. estimated 40% savings over conventional magnetic ballast systems.
- 8000 hours lamp warranty
- PLC freely programmable control, e.g. for recirculation pump interlock, flushing or circulation bypass, and shutdown procedures
- Minimum space requirement and highest level of installation
- flexibility due to free
- choice of mounting orientation
- Maintenance-friendly, single-end lamp connection and service access allows lamp to be
- Radiation chamber from high quality stainless steel 316L (1.4404)
- Automatic cleaning system

Chlor King Low Pressure UV System
Call for Pricing

The ChlorKing® Sentry UV systems uses low pressure high output amalgam UV technology to achieve 4 log reduction for the inactivation of cryptosporidium and other chlorine resistant bacteria found in swimming pools and spa's. The system is designed with a patent pending quick disconnect sleeve assembly for removal / replace or repair, and can be installed horizontally or vertically to fit in most existing pump rooms.

GEMS Sensor HP1 Water Level Controller SWLC
Call for Pricing

Electronically controls the water level of the pool using sensing probe technology. Three standard probes (high level, low level, and reference probe) that can be cut to fit specific facility's needs.

Delta UV ELP AM Series
Call for Pricing

Delta's ELP AM series is a low pressure high output UV System which destroys micro-organisms such as viruses, bacteria, mold and pathogens without adding chemicals to the water. The ELP AM series is ideal for pools with flow rates ranging from 250 GPM to 2,500 GPM. The average lamp life is 13,000 operating hours and are easily replaced without draining the chamber.

Neptune Benson Walter Level Controller NBWLC
Call for Pricing

Electronically controls the water level of the pool using sensing probe technology. Standard probe length is 12" but can be cut to fit specific facility's needs.

Fusion Single Post Starting Platform
SPE57281 Call for Pricing

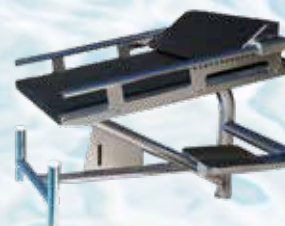

- Built-in Colorado Time System® RJP to calculate reaction time and relay exchanges
- Speedlights across the front of the RJP and step-side start indicator flash simultaneously with starting system horn and strobe light
- Lights provide an additional signal to athletes and create a more equal start for hearing-impaired swimmers
- FINA, NFHS, USA Swimming and NCAA compliant
- Uses single post anchor with patented anti-wobble, locator pinned design
- 32" x 24" NON-SLIP surface platform top for extra-fast starts
- Side handles to enhance speed and quick takeoffs
- Backstroke handles with versatile 18" H bar
- Stainless steel construction
- Suggested setback of 30" ∅ accommodates anchor setbacks of 24" to 38"

Available in grey, with upgrade of custom colors and logos available

Record Breaker Single Post Starting Platform
SPE57283 Call for Pricing

- Large 24" x 32" stainless steel top sloped at a 10° angle for optimal starting stances
- Covered in a superior non-slip material
- Easily upgradable to Xcellerator with addition of side handles & track start footrest
- Uses single post anchor with patented anti-wobble design allowing for easy removal
- Non-slip access step, available on side or rear
- Side step accommodates anchor setbacks of 18" to 38"
- Rear step accommodates anchor setbacks of 30" to 38"
- Backstroke handles with versatile 18" H bar
- Stainless steel construction
- Easy-to-read, large numbers visible from all four sides
- Available in black, with upgrade of custom colors and logos available
- Complies to FINA, USA Swimming, NCAA and NFHS regulations

Xcellerator Single Post Starting Platform
SPE57282 Call for Pricing

- Large 24" x 32" stainless steel top sloped at a 10° angle for optimal starting stances
- Covered in a superior non-slip material
- Easy-to-adjust track start footrest with 12 location setting options to accommodate all heights and levels of flexibility
- Uses single post anchor with patented anti-wobble design allowing for easy removal
- Side handles included to enhance speed and faster takeoffs
- Non-slip side access step
- Backstroke handles with versatile 18" H bar
- Stainless steel construction
- Suggested setback of 30" – accommodates anchor setbacks of 18" to 38"
- Available in black, with upgrade of custom colors and logos available (logos can be placed on platform top, wedges, or steps)
- Easy-to-read, large numbers visible from all four sides
- Complies to FINA, USA Swimming, NCAA and NFHS regulations

Timing Systems

Colorado Championship Start System
COL200-CCS \$1,450.00

The Championship Start System by Colorado is great for larger pools and is the only system that will drive the Relay Judging Platform (RJP) speedlights and start indicators. The Championship Start System includes: 360 degree strobe that flashes with start signal tone (additional strobe lights available). One wired microphone included. Also includes three microphone inputs; two wired and one optional wireless. Independent volume control for each microphone input.

System 6 Sports Timer
COL060 \$4,775.00

Colorado Timing Systems designed the System 6 as a computer console to coordinate information from a swimming or diving event and transmits the results to the scoreboards. The System 6 includes: USB for software updates, color LCD display, external mouse and keyboard port as well as swimming & diving software.

Colorado Infinity Start System
COL100-IFS \$975.00

The Infinity Start System by Colorado is great for smaller pools and an economical choice for those facilities looking to begin or expand their swim teams timing system. The Infinity Start System includes: start module with handle, 40 watt corrosion resistant speaker, wired microphone with start button, internal gel-cell battery and 115V charging capability.

Backstroke Start Device
COL305 Call for Pricing

Colorado Time System's Backstroke Start Device is designed to help eliminate slips at the start of a race. The device attaches to most starting platforms, where a wedge is pulled down to a desired location on the pool wall and locks into place. The moment the swimmer pushes off the wall the device retracts up and out of the water.

Dolphin Wireless
Stopwatch System
Call for Pricing

Colorado Timing Systems designed the Dolphin Wireless Stopwatch system as an accurate and easy to set up handheld timing solution. Each system includes: starter unit, 1 wireless stopwatch per lane (capable up to 3 stopwatches per lane).

SHIPPING

Most items on our website will process in 2-3 business days if the order is received by 10:00 am EST and will ship out UPS standard ground rate. Special orders may take 1-8 weeks to receive. During peak months of May, June and July orders may take longer to ship.

Due to shipping dimensions, quantities, weight, hazmat or expedited shipping requests, some orders will require additional freight charges. In these cases, a representative will contact you within 3 business days to advise of additional shipping charges.

State sales tax may be applicable.

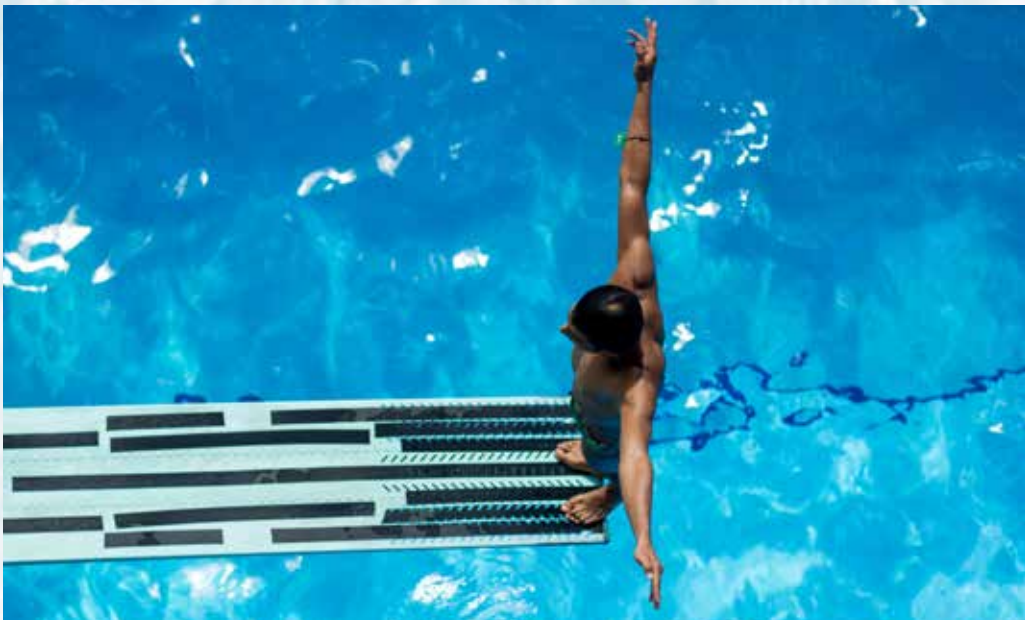

All prices are F.O.B. origin (freight is additional).

All Prices Subject to Change Without Notice

RETURNS

Merchandise must be returned within 30 days of original purchase. To return a product to CT Custom Aquatics for credit, you must include a Return Authorization Number and proof of purchase. Call us at 1-877-772-4126 to obtain a Return Authorization Number before you ship a product back to us. Please include this Return Authorization Number on the outside of the package being returned and please ship all items prepaid via UPS. All returned items must be in original packaging and in new condition. Returns may incur a restocking fee. Shipping and handling charges are not eligible for credit.

Please return items to:
CT Custom Aquatics
8 Massimo Drive
North Haven, CT 06473
