

Neuro-Resource Facilitation Program Resource Sheet

Neuro-Resource Facilitation: Def. A partnership that assists individuals to receive information that will enable them to make informed choices for services and supports in meeting their individual needs.

This involves individuals living with brain injury or stroke and their personal support systems working in partnership with Neuro-Resource Facilitators who provide assistance in navigating systems and acquiring services and support to achieve agreed upon goals. We do not directly provide the services, but the support and resources in acquiring them.

Eligibility:

- Legal Resident of NH.
- Have experienced a Brain Injury or Stroke before the age of 60.
- Be expected to benefit from the services.
- Have goals or objectives that they would like us to assist them with.

Neuro-Resource Facilitation Activities may include:

- Completing an intake form including identifying information, participant's needs and current resources.
- Educating the community and personal support system(s) to understand how barriers may impact the lives of the participants.
- Planning mutually agreed upon goals with services and/or supports needed to reach them.
- Identifying and locating resources, services and supports.
- Facilitate access through the development and/or referral of resources, services and supports.
- Monitoring the status of the goals and the quality and appropriateness of services and supports. Adjusting services and supports as needed to attain goals.
- Provide outreach services to help identify individuals who could benefit from this program.
- Assisting participants to advocate for themselves.

The Neuro-Resource Facilitation Program does not provide any direct services.

If you have a referral or questions about the Brain Injury Association's Neuro-Resource Facilitation Program, please call (603) 225-8400 or 1(800) 773-8400.
