

# PRODUCTION ELEMENTS

## VIDEO

## OPENING COLLAGE

Audio & Video start at the same time. We will use a visual cue. Video ends, back to logo.

## LIGHTS

## NO FORMAL PLAN

Keep it simple. Change colors every so often, etc.

## SOUND

## STEREO TRACKS FROM DI

Tracks include the “**keyboard parts**” (piano/rhodes/clav/organ). Audio from the DI has the keys “out front”. Set the level of the tracks using the “keyboard parts” as a guide. Same level as if live keyboardist on stage.
