Yettie Bormann Belzung celebrated her 80th birthday on Nov. 12. About fifty of her friends and relatives helped her celebrate with a dinner party given by her children, Chloris Varga of Helotes, Rae Burell of Castroville, and Royce Belzung of Iowa. All wished her many more birthdays.

Joyce Hedger will lead the Stevenson Middle School PTA for the 1981-82 school year. Other officers are Jeanette Martinez, vice president; Jackie Loeffler, secretary; and Anna Bailey, treasurer. Band Booster Club officers are Barbara Burleson, president; Sue Brummet, vice president; Judy Lewis, treasurer; and Billi Jo Villemain, secretary. Then on Sunday morning at 8 a.m. a mass in honor of James and Rita will be celebrated at Our Lady of Guadalupe Church.

John and Laura Chaffee of Downtown Helotes visited his parents in Corpus Christi over the Labor Day weekend.

Wells Hold High Levels

Water well levels throughout most of the Edwards Underground Water District declined slightly during August, the district office has announced.

The drop followed several weeks of scant rainfall from mid-June to mid-August, but all wells in the area are still above their long-term averages, Tom Fox, EUWD general manager, said.

Spring flow was off a scant eight cubic feet per second at New Braunfels, with Comal Springs flowing 322 cfs at the end of August, compared with an average of 285 cfs. San Marcos Springs declined only one cubic foot per second to a flow of 271 cfs. The average there is 166 cfs.

A John Marshall High School graduate, Sandra Meyer, is congratulated by Dr. John Brown, director of admissions and registrar for the University of Texas at San Antonio, for being the 10,000th student to register for the fall semester. Sandra is a senior accounting major. The university's official enrollment is 10,562 students. Last fall it enrolled 9,800 students. University officials say the school's enrollment is increasing in line with projected growth patterns. (Photo by John Poindexter, UTSA Staff Photographer)

Voting To Be Held On Nov. 3

Three candidates have filed for mayor and six candidates have filed for city council posts in Helotes' first city election, to be held Nov. 3.

The mayor candidates are Bennie H. Lyon, Pete Cantu and Thomas E. Beatty.

For city council, the candidates are Verna Thompson, Clyde Crow, Joseph Michael Krisak III, Charles Lee, A. J. (Moon) Mullins and James A. Perry. Five will be elected.

No candidate has filed for the city marshal post also called for in the order for the special election.

Deadline for other candidates to file is Monday, Oct. 5—extended from Oct. 3 since that is a Saturday. Citizens may file in person at the office of County Judge Albert G. Bustamante in the Bexar County Court House or may file by mail addressed to Judge Bustamante. Any registered voter 18 years old or older who meets the six months residency requirement and who was eligible to vote for incorporation may file for a post.

The special election order was issued after citizens voted overwhelmingly in favor of incorporation on Aug. 8.

The first city election will be held at the Helotes Hills United Methodist Church on Tuesday, Nov. 3, from 7 a.m. to 7 p.m. Barbara Galland has been designated as election judge.

Absentee voting will begin Wednesday, Oct. 14, at the PARC Building at the Methodist church, and will continue daily through Oct. 30 from 8 a.m. to 5 p.m.

The candidates elected on Nov. 3 will serve until the regular city election in April, when the election process will be repeated.

Social Security Checks Get New Look

U.S. Treasury checks for people getting supplemental security income will have a new look starting with the checks issued Sept. 1, William M. Archuleta, social security district manager in San Antonio, has stated.

The front of the checks will

still be gold, Archuleta said, but the back of the checks will be buff color with orange printing. Starting in late 1981 or early 1982 social security checks will be green on the front, buff color on the back with orange printing.

The change is being made

to increase the effectiveness of the Treasury Department's check microfilming operation.

The color change on the back will not cause any problems, Archuleta said. Banks and other financial organizations have been

notified of the change and will accept these new checks just as they did the old ones.

There is no need to call social security, he added. The new checks can be used just as the old ones were.

Lyon Announces For Mayor

Mr. Bennie H. Lyon, native Texan and a resident of Helotes for the past 18 years, formally announced his candidacy to become the first Mayor of the City of Helotes, and earnestly solicits the help and support of every individual who wishes Helotes to remain "Helotes."

Mr. Lyon came to Helotes in 1964, from Nacogdoches, Texas, by way of Austin, Albuquerque, Salt Lake City, Denver, Omaha, Washington D.C., Tampa, Florida, Waco, Tripoli, Libya, and San Antonio.

In his family are: wife, Modesta, married 38 years; sons, John and wife Kay and Robert and wife Cynthia. John is a physicist with NASA at Goddard, Md. Bob is a photogrammetrist in San Antonio. Bob and Cynthia both are members of the Helotes Methodist Church.

Bennie started career as rodman and chainman in survey parties in 1935, progressed to instrument man and surveyor then party chief and finally left the Federal government in 1946 as Professional Photogrammetric Engineer. He then went into employment in the private practice of Photogrammetry, as Operations Manager and Engineering Director of a major company, in responsible charge of very large projects in the United States, Mexico, Libya, Egypt, Spain, Alaska, and many others.

Lyon started his own company, United Aerial Mapping, in 1957, beginning 16 years of competition with his own industry and with the Federal government. The government competition was the fiercest of all, since that competition was using our money and did not need to show a profit!

Many successful mapping projects were completed nationwide and United was sold to a major company in 1972, and Lyon remained as Chairman and President while becoming Chairman of two other mapping companies within this corporate group, as well as a member of the Board of Directors of the Parent Company.

In 1977 Mr. Lyon retired from active participation in the mapping business, except to remain as Advisory Board Member of the parent company.

He organized Lyon Enterprises in Helotes, which heads up a Health Food Store, B. H. Lyon & Sons, and Skye Island Corporation. He has been active in civic enterprises such as Helotes Merchants Association, Homeowners Association, financially supported and sponsored Helotes Children's Soccer, also financially supported the Volunteer Fire Company and the Helotes Festival Association.

Lyon states that he feels that his efforts on behalf of organizing and obtaining a charter for the Helotes State Bank as well as financial support is probably his most important lasting contribution so far to our town. Mr. Lyon is Vice Chairman of Helotes Bank.

More information will be forthcoming on the philosophy of government in which Mr. Lyon and his supporters believe, but basically it is very conservative. We came out here to escape the confines of the big city, and wish to remain pastoral while continuing to progress. But not progress into more bureaucracy. We don't need it.

The "Texas Abandoned Motor Vehicle Act" which grants authority for the sale of these vehicles also provides to the purchaser of these vehicles a vehicle free and clear of all liens. This entitles the purchaser to register the vehicle and receive a certificate of title.

Edwards To Build Dam

A 1981-82 budget of \$1,017,394, more than half of it committed to recharge of monitoring projects, was adopted Tuesday by the directors of the Edwards Underground Water District.

The budget includes \$420,000 for construction of a flood water retarding structure on Seco Creek in Medina County, and \$25,000 to fund preliminary investigations for new recharge projects.

The new budget increases from \$90,000 to \$110,000 the funding for monitoring stations, with the EUWD taking over four stations paid for the past two years by the Bureau of Reclamation.

In other business, the EUWD directors gave strong support to the water trust fund legislation passed as a constitutional amendment in the special session of the Texas Legislature. A resolution was adopted urging residents of the Edwards Aquifer area to support passage on Nov. 3 of the amendment which authorizes the use of a portion of excess state revenues for water development, water conservation, water quality enhancement and flood control purposes.

The resolution states the district recognizes there is substantial growth in Texas, particularly in the Edwards Aquifer area, with increasing demand upon water resources.

We could have named our new account "the-5¼%-interest-bearing checking-account with-the-6½%-interest-CD that-gives-you-overdraft protection."

But the "Best Check Yet" was a lot easier to say.

And it gets right to the point. Gill's Best Check Yet is better than any other standard NOW account.

The CD is the reason. It earns you additional interest. And you get overdraft protection up to the amount you invest in that CD. Whether it's \$500 or up to \$10,000.

Of course, there are lots of other nice "freebie" services you'll get (no service charges, for instance) just to sweeten the deal.

But then, what else would you expect from a Gill account called, in all modesty, the Best Check Yet.

Doris Smith from Largo, Florida, who comes to Helotes each year to visit Wanda and Corbin Terry, owners of Helotes General Store & Restaurant, has returned to her home. Before going, she said that her visit in the Hill Country and renewal of old friendships here add pleasure each year. She and her late husband shared many military assignments in Europe with the Terrys.

Frenchie Burke's fans who want to mark his return appearance at Floore Country Store can just remember Thanksgiving week-end. He'll be back Saturday, November 28.

Jaime Laredo Next For Symphony Series

Jaime Laredo, violinist, and Sharon Robinson, cellist, will be featured soloists in the second subscription concert of the season with the San Antonio Symphony at 8:30 p.m., Saturday, Sept. 19 in the Theater for the Performing Arts, and again at 8:00 p.m. on Monday, Sept. 21 in Laurie Auditorium. Conducting the Symphony will be Maestro Lawrence Leighton Smith.

Jaime Laredo, violinist, was catapulted to international prominence at the age of eighteen as the winner of the coveted Queen Elisabeth of Belgium Competition. He has distinguished himself both here and abroad as one of the world's finest musicians.

Born in Houston, Sharon Robinson has been acclaimed one of the most brilliant cellists before the public today. She has won many accolades for her appearances throughout the United States in such cities as Chicago, Boston, Philadelphia, Washington, D.C., Cleveland and San Francisco as well as at the Spoleto Festival in Charleston, South Carolina. As the winner of the 1979 Avery Fisher Recital Award, this exciting young artist gave her fourth New York recital in March, 1981 on Lincoln Center's prestigious Great Performers Series at Avery Fisher Hall.

While in San Antonio, Jaime Laredo will hold a master class for all area violinists as part of the Russell Hill Rogers Residency Program. Now in its third

year of operation, the proceeds from this endowment bring well known violinists into San Antonio for the purpose of performing, teaching and dialoging with young string players and local professionals. This special program will be presented at 2 p.m. on Sunday, Sept. 20 at Ruth Taylor Concert Hall at Trinity University.

Tickets or information for the Laredo and Robinson concert may be obtained from the Symphony box office at 223-5591.

A Report From The Helotes Area Volunteer Fire Dept., Inc.

The Helotes Area Volunteer Fire Department, Inc. is at the beginning of a new fiscal year which means we will again be looking to the citizens of the Helotes area for financial support. Last year we received donations from 437 individuals and businesses out of a possible 1,450 and this year we hope to see that number surpassed.

This past year has seen many long overdue improvements to the department and we have met just about every goal we had set. We have renovated the fire station with a new roof, new paint inside and out, new overhead doors, carpeting in the meeting room, and miscellaneous training materials and equipment. All of the firefighters are equipped with new turnout gear (coats, boots, helmets, and gloves) and all of the trucks are completely operational. We were able to send one of our firefighters to the Texas A&M fire training school and we will be sending one to the certified arson investigation school at SAC. The reason for sending personnel to these schools is so that the training can be brought back and given to the rest of the members.

All of the above was made possible by the response of those people who donated funds to the department. It is important to know that we are a non-profit, 100% volunteer organization completely dependent on donations. We do not receive any regular support from any governmental agency other than \$300 from Bexar County on a contract with them to provide fire protection to this section of Bexar County. That by itself won't pay the normal operating expenses. At this time, nothing has been negotiated with the new city of Helotes for providing fire protection so contrary to what some people are saying, no part of our Helotes city taxes are scheduled to go to the fire department. Also, the fire department is an incorporated, non-profit business and is now and will continue to be completely separate from the City of Helotes with absolutely no control by the city. In other words, we still need the support of each and every resident.

In response to some rather negative comments we have heard, yes we have received approval for a \$75,000.00 federal loan (we do have to pay it back—5% interest for 15 years) to be used to purchase a new fire truck. This project was undertaken by the fire department and is an obligation of the fire department, NOT the City of Helotes. With the number and size of new homes and businesses being built in our area, there is no way the equipment we are now operating can handle the types of fires we can expect to occur. The fire department is assuming this obligation and we feel confident we can meet it if donations stay at the level they have been during our last fiscal year. This is not an obligation lightly taken. Much thought and effort has been put into it by a lot of people and it is being undertaken strictly as an asset and benefit to our community.

We have a great group of folks in our department—18 active firefighters (men and women) backed by an outstanding auxiliary (men and women) who give additional support with fundraising activities, station maintenance, and food and drink support when necessary at fire scenes. Everyone is extremely dedicated and working toward the goal of making ours the best volunteer department in Bexar County. We welcome new members and encourage anyone interested to attend any of our regular meetings (1st and 3rd Wednesdays of each month at 7:30 p.m. and the 4th Friday at 9 a.m. for firefighters; 2nd Monday of each month at 9:30 a.m. for the Auxiliary). Come on by — give it a try — you might like it!

Antiques Go To Institute

A collection of more than 100 items of antique medical equipment has been given to the University of Texas Institute of Texan Cultures by the UT Health Science Center.

Items include a tonsil guillotine, mahogany medicine cabinet, screw tourniquet, wax hand, doctor's bag with instruments, and others.

Over the years the health science center library has received various 19th century artifacts and medical instruments, mostly as gifts from San Antonio families, according to library director Dr. David Kronick. Some

have been displayed on campus, but the material had accumulated beyond the school's capacity to properly show it all.

Bonnie Truax, education specialist for the Institute, said the Institute was "thrilled to receive the items. We have outreach programs in which we take artifacts to school, nursing homes and other locations for presentations, and we will add some of the donated equipment to these kits."

Other items will appear in the Institute's exhibit areas that depict early medical practice in Texas, she added.

Principal Is State's Top

Holmes High School Principal Charles E. (Charlie) Brown has been named the Outstanding Principal in Texas by the State Future Business Leaders of America. The award was presented to Brown at the State Leadership Conference in Houston.

Brown has been principal at Holmes since 1972 and an educator and administrator for 27 years. A native of Kerrville, he earned his bachelor's degree from Trinity University and his master's in education from Southwest Texas State University.

He is chairman of the National Association of Second-

dary School Principals, and serves as chairman for District XX, Texas Association of Secondary School Principals. He is a member of Phi Delta Kappa, educators professional fraternity and was named to "Who's Who in Texas, 1974." His wife, Carolyn, is a reading specialist at Dellview Elementary School. They have two children, Mike, 26, a homebuilder, and Doug, 23, a mechanical engineer.

The other Outstanding Principal Award in Texas was presented to George Bujnoch, Round Rock High School principal, Round Rock.

Grant Aids Study Of Disease Cause

A federal grant of nearly a quarter of a million dollars has been awarded The University of Texas Health Science Center at San Antonio for study of a microorganism that has become increasingly recognized as an important cause of human disease.

Researcher Dwight Williams, M.D., assistant professor of medicine, division of infectious diseases, will use the three-year grant of \$244,689 from the National Institute of Allergy and Infectious Diseases to study a microorganism called *Chlamydia trachomatis*.

"Chlamydia causes pneumonia in infants three to 11 weeks of age and venereal disease in adults," Williams said. "It's also a cause of pneumonia in adults whose natural immune defenses have been weakened by cancer or cancer therapy."

Because Chlamydia infection is not reportable in this country, it is not known exactly how many people it affects, but it is believed to be quite common. Among the problems it causes are urethritis and infections of the cervix and fallopian tubes.

The largest diamond ever found was the 1 1/2 pound Cullinan diamond, unearthed in South Africa in 1905.

Fifty years ago, a lady of great adventure and romance, fell in love with a charming rock house shaded by tall oaks in the peace of a country village. There she christened the Grey Moss Inn and began to serve her famous steaks, pies and hearty dinners. Her tradition thrives. Come share her adventure.

High Blood Pressure Causes Sought

An estimated 40 million Americans suffer from high blood pressure (hypertension).

This disease is characterized most commonly by increased blood volume and increased nervous system function, and can lead to a number of health problems. Among the most serious are heart attacks and stroke. Together, these killed an estimated 791,200 people in the U.S. in 1979, according to the American Heart Association. In Texas, heart attack was the leading cause of death in 1980, killing more than 37,000 people.

While hypertension is a common ailment, the cause and mechanisms of the disease still are not clearly understood.

A young researcher at The University of Texas Health Science Center here has received a New Investigator Research Award from the National Institutes of Health (Heart, Blood and Lung Institute) to study cause of hypertension.

General Store Expands Restaurant

A century-old general store — which has seen many changes in its years as the major stop for supplies — will undergo a few changes itself soon, according to its present owners, the Terry Family. With the heavy growth of competition from supermarkets, groceries do not play as important a part in the operation of Helotes General Store & Restaurant as it once did.

So in order to make room for the expanding restaurant business and to guarantee a successful operation, the family headed by Wanda and Corbin and their son and daughter, Dennis and Geri, have decided that only the meat market will remain in addition to restaurant-related activities.

The front part of the Store will have a main entrance to the Restaurant. A party room for private parties will be added, and an ice cream parlor is also being considered. The restaurant will maintain its usual hours and a breakfast coffee nook will also be added in the store. Meanwhile a stock reduction sale is offering great bargains and many hard-to-find items.

McEnroe-Gerulaitis To Play Match Here

Fall Fabrics

In a re-match of last Saturday's semi-finals competition at the U.S. Open, top-seeded John McEnroe, Wimbledon champ and three-time winner of the U.S. Open, will take on Vitas Gerulaitis during the Budweiser Light Cup to be held here Friday, Sept. 18 at 8 p.m. at the San Antonio Convention Center Arena.

The San Antonio exhibition will mark the first appearance ever for the two world-class netters in this Texas city.

Their best of three set match highlights an entire evening of tennis scheduled in conjunction with the first Budweiser Light Cup. Prior to the McEnroe-Gerulaitis match, former University of Texas/Austin tennis standout and 1979 NCAA champ Kevin Currin will face Peter Rennert of Great Neck, New York.

Two rounds of best-of-three celebrity doubles follow the McEnroe-Gerulaitis duel. In the first, San Antonio Spur George Gervin will team up with McEnroe to take on fellow Spur Gene Banks and Gerulaitis. Next McEnroe and KTSA's Donna Parker will test their backhands

against the team of Gerulaitis and San Antonio Express News sports writer Dan Cook.

Tickets to the Budweiser Light Cup are \$10, \$12.50 and \$15. A limited number of court-side box seats are available at \$25 each. Tickets are available at all San Antonio Sears stores, the Spurs box office and the Kelly Recreation Center box office on Kelly AFB.

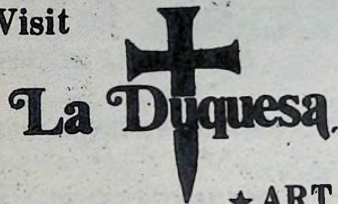

Fall's many choices of knitted surface textures are on the fashion scene. New varieties of knitted fabrics range from silk-like smoothness to sueded finishes to fuzzy napped blanket looks, Ann Vanderpoorten, a clothing specialist, points out. One new development is a knitted fabric that looks like poplin and other woven fabrics, she says.

Card Of Thanks

With deep gratitude, I would like to try to express in words my appreciation and thanks for the friendship and kinship expressed in the gifts of food, flowers and condolences from friends and neighbors during the recent passing of my father, Mr. Raymond Schwab.

Academy Honors Dr. Lee

Dr. Robert T. Lee, Helotes and Leon Valley dentist, has been awarded a fellowship of the Academy of General Dentistry. To earn fellowship, an Academy member must complete a minimum of 500 hours of approved post-doctoral continuing education credit within a ten-year period and meet other specific requirements. This is one of the highest achievements a family dentist can attain.

Dr. Lee earned a bachelor of arts degree from the University of Texas at Austin in 1969 and a doctorate in dental science from the University of Texas Dental Branch at Houston in 1973. He served as captain in the United States Air Force Dental Corps from 1973 to 1975 as an instructor in the dental assisting, dental hygiene, and expanded duty

departments. In 1976 he taught in the Dental Assisting Department at San Antonio College.

Dr. Lee has been practicing preventive family dentistry in the Helotes and Leon Valley area since 1976 and has his office in the Leon Valley Professional Building at 6336 Bandera Road, Suite F. He also has been the dental consultant and guest lecturer at the University of Texas at San Antonio for the past four years.

Some of Dr. Lee's civic and business involvements are director of Leon Valley Business and Professional Association, director of The Helotes State Bank, and president and director of the Elm Creek Homeowners Association.

Mr. and Mrs. John Tagliarino of McNeel Park spent a long Labor Day weekend in Ruidoso. John said the horse races were great, but the trip was worth it just for the change in climate, Ruidoso being high and cool.

SPECIAL NOTICE

Dear Citizens:

It is times like this year that makes me wonder, just what kind of community I'm living in?

When I returned to town after Labor Day and saw the total for this year's donation to Muscular Dystrophy, I cried to think that people couldn't give up one six-pack or something else.

Our grand total for 1981 is exactly \$2.00. That makes me sick.

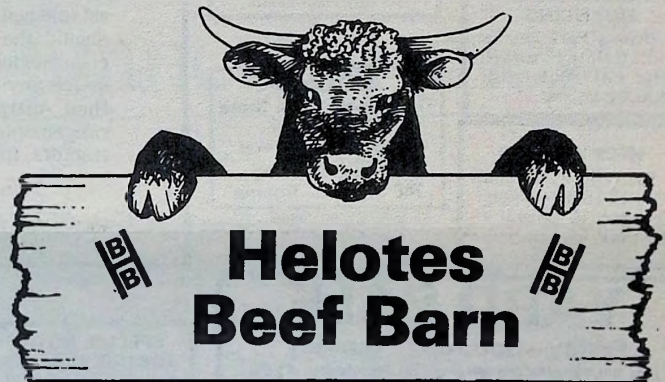

That's what was in the MDA container at Handy Andy No. 40 in Helotes. Special thanks to Harry Harris for his allowing me to put it in there. Mr. M's container went credit-wise to the NACCS Association.

Be aware, NEXT YEAR I'm taking charge of MDA Helotes again as chairman, and IT WILL BE A BIG YEAR...

To those that did donate, thank you and God bless. Let's care a lot more next time, folks.

Sincerely,

Mr. Joseph T. Bambeck
