If not on the sewer system what size holding tank does your lot have: _____

- **It is the responsibility of the Lot Owner(s) to verify property lines when making any permanent improvements.**
- You must submit a detailed sketch of the project, including dimensions and location of project/RV on lot.
- Sheds shall not be larger than 192 square feet.
- Contact Planning and Zoning (636-456-3044) prior to starting a project to determine if a Warren County permit is required. It is the lot owner's responsibility to obtain all required permits.
- The original approved copy of this permit request form, with Dogwood Seal, must be presented to Warren County Planning and Zoning when applying for the Warren County permit.
- **When accessing the water system, 24-hour notice required for planned outage. Shut-off valves shall be installed on all new and replaced water hookups. Contact Caretaker or Maintenance Chairperson to inspect work before burying.**
