

## Summer Camps

Opportunities for children in the Midland Juvenile Care Day Treatment Program to practice skills they have learned through programming and therapy. Experiences provide exposure to positive peers, future careers, and structured use of free time.

## Wraparound Services

Community team planning approach delivering services and supports in order to maintain the child in the family home. Program serves youth and their families which have severe and multiple needs and risks.

## Midland Kids First

### Accelerating results for at-risk kids

*Providing evidenced-based interventions for at-risk youth to assure they become well adjusted, responsible, and contributing members of the community.*

**87%** Decline in delinquency since 1998

**94%** Decline in alcohol offenses Since 2002

**80%** Decline in drug offenses Since 2002

**59%** Reduction in drug use 42% nationally

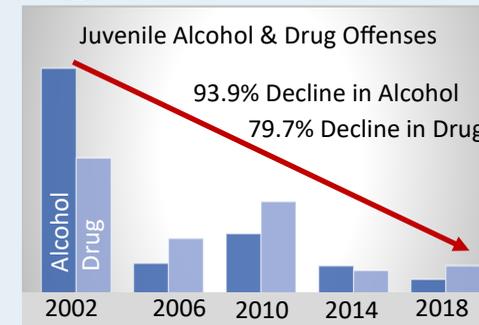

**Empowering kids to succeed**

## Recovering Youth Futures

In association with local community providers a substance use disorder treatment initiative is available for all youth under age 18 who reside in Midland County. The program provides evidence-based cognitive therapy and developmental asset building interventions that help at-risk youth manage their disorders.

Contact Jackie Warner at 989-832-6855

**15%** Recidivism after 2 years

## Midland Mentors

Caring adults work with youth who attend the Midland County Day Treatment Program offered through the Juvenile Care Center.

## Strengthening Families

Evidence-based intervention to reduce problem behaviors. Program guides development of relationships and skills in teens and their families, who are involved in juvenile justice system.

Judge Dorene S. Allen

Midland County Probate & Juvenile Court Judge & Courthouse Clyde

## Trauma Informed Supports

*MKF* supports programs that studies indicate can reduce physical, psychological and emotional stressors experienced by court youth who have suffered trauma. Dory, a therapy dog at the Juvenile Care Center, weighted blankets, and art projects are a few examples of programs that help participants navigate through their treatment.

## Enhanced Youth Supports

The best place for children to change behavior is with their families at home. *MKF* collaborates with community partners to develop programs to help high-need, high-risk and emotionally disturbed youth stay with their families thereby diverting them from entry into the juvenile justice system.
