2024 Season

About Us

Founders of KDC

As dancers all of our lives, we found that Colorado Springs was lacking opportunities for professional dancers to continue their passion for performing. We also found a missing element of full story performance in town. The five founders started Kinect Dance Collective in 2017 and haven't looked back since. Our company members consist of both men and women, trained in a variety of dance styles. We love the diversity that the Colorado Springs community provides. We look forward to seeing KDC grow and become a recognized name in Colorado Springs.

MISSION AND IMPACT

MISSION

Kinect Dance Collective aims to provide a supportive, dynamic environment for young adults who are passionately pursuing their love for dance. We strive to create original, professional, and entertaining productions for the Colorado Springs community.

IMPACT

KDC gives college students, full-time workers, and/or mothers and fathers the opportunity to keep following their passion for dance. With your help, we can bring more awareness and recognition to the arts in Colorado Springs while fostering a fulfilling, supportive environment for our dancers.
