**INSTALLATION INSTRUCTIONS FOR
REAR TIRE HUGGER
SUZUKI GSXR 2000-2003(750) 2001-2002(1000)**

1- Position the hugger in the swing arm.

2- Once aligned, please mark the right side first using a white marker.

3- Using a 1/8" drill bit, drill the first hole. Using the hardware provided, hold the hugger (do not tighten them too much).

4- Once everything aligned, proceed with the other side. Repeat step # 3 and tighten all bolts.

NOTE: Make sure the rear tire hugger is completely aligned before drilling the hole.

Black washers included should go on the glossy side.

Your are done!!
