Damp shield is a durable flexible waterproofing coating which is suitable for use of roof coating

Waterproofing: It easily penetrates deep into the concrete capillaries and protect it from permeability to water.

Damp shield is reinforced elastomeric water proof coating suitable for exterior surface

Excellent ability to bridge cracks  
Advantages: chemically active waterproofing treatment for concrete

### COVERAGE

Horizontal surface

Forced System Coverage  
10 Sq/ltr

Vertical surface

Forced System Coverage  
2.32 Sq/ltr

Repainting

Forced System Coverage  
2.79-3.25Sq/ltr

3 MM LONG LASTING  
FIBRE TECHNOLOGY
